#### II.1.4) Short description

The Council have an ongoing requirement for a contractor to provide a maintenance service for the Building Energy Management System (BEMS) and Under Floor Heating (UFH) within South Lanarkshire across a number of establishments including education and social care settings.

Maintenance of both the BEMS and UFH is essential to ensure that there is:

- the optimum performance of the equipment controlled
- provision of thermal comfort levels to the working environment for the occupants of South Lanarkshire Council's properties
- effective control of energy consumption, for energy efficiency purposes.

The maintenance of the works requires specialist skills and therefore the contract is split into four separate lots. These lots reflect the main types of equipment in use as follows:

- Lot 1 Trend Controllers
