Section VI. Complementary information

VI.3) Additional information

Devon County Council's (DCC) framework agreements for Minor Engineering Works (2018-2022) are currently due to expire on 31 March 2022 and, with this in mind, a project to consider and procure successor arrangements is underway.

It is currently envisaged that the successor arrangements will commence on 1 April 2022 until 31 March 2026 and will be used to deliver a wide range of civil engineering works associated with the expansion, improvement and maintenance of DCC's highway, cycleway, waste management and flood risk management assets.

A questionnaire aims to share our current proposals and to gather the market's views for further consideration by the project team in advance of the procurement which is likely to commence in Autumn 2021.

If your organisation is interested in these forthcoming opportunities, we strongly encourage your organisation to respond as this is a real opportunity to shape DCC's future arrangements.

Please visit <http://www.supplyingthesouthwest.org.uk> for free access to the questionnaire and supporting information.
