## **Framework Agreement for ICT Products, Solutions, Services and Support**

NEXUS MULTI ACADEMY TRUST

UK2: Preliminary market engagement notice - Procurement Act 2023 - [view information about notice types](#)

Notice identifier: 2026/S 000-002028

Procurement identifier (OCID): ocds-h6vhtk-05f988

Published 9 January 2026, 4:25pm

### **Changes to notice**

This notice has been edited. The [previous version](#) is still available.

Update to the engagement process description.

### **Scope**

### **Description**

Nexus Multi Academy Trust (Nexus) is seeking to establish a framework for the provision of ICT products, solutions, services and associated support, delivered through a Neutral Vendor Managed Service model.

Nexus are a CIPS Procurement Excellence Programme accredited Multi Academy Trust (supported through the DfE ESCC/TALI initiative) and a partner of the Positive Change Alliance (PCA), which comprises 10 multi academy trusts with in excess of 100 schools.

Nexus have identified the need to continue the provision of a compliant route to market to access a range of ICT Products, Solutions, Services and support to meet the diverse needs of Education and other Public Sector and associated organisations.

The Framework will be established directly by Nexus Multi Academy Trust and will be open for use by all public sector contracting authorities, including but not limited to:

- Multi-Academy Trusts and Schools
- Further and higher education institutions
- Local authorities and associated bodies
- Other bodies governed by public law

While the framework is primarily designed to meet the needs of the education sector, it will be structured to ensure it is accessible and suitable for use across the wider public sector.

Proposed scope of the Framework:

The Framework is expected to provide a compliant route to market for a broad range of ICT products, solutions and services, which may include (but are not limited to):

- End-user devices and peripherals
- Networking, infrastructure and connectivity solutions
- Cloud and on-premise software and licensing
- Cyber security and data protection solutions
- Managed ICT services and support
- Design, implementation, integration and lifecycle support

The Framework will operate using a Neutral Vendor Managed Service model, under which the appointed framework supplier will be responsible for:

- Impartially managing and integrating competing sub-contractors and manufacturers
- Ensuring customer choice, competition and best value at call-off
- Coordinating delivery, maintenance, support and interoperability across ICT categories

Further detail on scope will be provided within the UK4 Tender Notice and associated procurement documentation.

## **Commercial tool**

Establishes a framework

## **Total value (estimated)**

- £1,000,000,000 including VAT

Above the relevant threshold

## **Contract dates (estimated)**

19 January 2026

## **Engagement process description**

Nexus Multi Academy Trust

300 Meadowhall Way

Sheffield

S9 1EA

[commercial@nexusmat.org](mailto:commercial@nexusmat.org)

19th January 2026 - 10:00am

Purpose of Engagement:

This pre-market engagement event is being conducted under the Procurement Act 2023 for information purposes only. It aims to help us better understand the market, test initial thinking, and inform the development of our future procurement strategy and requirements.

Nature of Engagement:

This is not a procurement competition.

No tender or award process is being run at this stage.

Participation in any pre-market engagement activity or attendance at any pre-market engagement events does not confer any advantage or disadvantage in any future procurement process and does not form part of any evaluation. Nexus MAT reserves the right to amend or cancel this engagement at any time without notice.

Indicative Future Approach:

Our current intention is to use the Competitive Flexible Procedure under the Procurement Act 2023.

We are considering a multi-stage approach, which may include stages such as selection, dialogue or refinement, and final tender submission. This indication is non- binding and subject to change.

The final design of any future procurement process will be set out in formal procurement documentation if and when published.

### Information Sharing and Fairness:

All information shared during this engagement event will be high-level and may include confidential information. Participants must not disclose commercially sensitive or confidential information where it has been indicated as such.

Key themes and insights will be recorded, and a summary may be shared with the wider market to ensure transparency. Individual supplier comments will not be attributed.

Nexus MAT is committed to equal treatment and transparency throughout this process.

### Next Steps:

Please confirm your attendance at this initial pre-market engagement event by emailing [commercial@nexusmat.org](mailto:commercial@nexusmat.org) no later than 12:00pm on Thursday 15th January 2026.

This session is limited to 2 attendees per organisation.

Questions relating to any future procurement process will be addressed through formal procurement documentation once published.

By participating, suppliers acknowledge and accept these conditions.

This is an in-person event only. Dependent on uptake we may also do a further online session however this is not guaranteed.

For the avoidance of doubt, and in accordance with the Planned Procurement Notice, this Preliminary Market Engagement (PME) event is aimed primarily at organisations that may be interested in bidding to act as an independent, neutral operator of the proposed framework on behalf of Nexus Multi Academy Trust.

The planned PME event, and the subsequent procurement procedure, will be less directly relevant to organisations that are interested solely in becoming approved providers to the framework once it has been established.

While all organisations are welcome to engage in the PME event, those whose interest is limited to supplying ICT goods and/or services through the framework once operational, and under the management of a neutral operator appointed through this competition, may prefer to wait until the framework is live and the relevant supplier approval and onboarding processes are in place.
