The Trust has opted to appoint Global Schools Alliance (GSA) based on the following grounds:

**Proven Track Record:** GSA has previously delivered successful international exchanges for the Trust. They have an intimate understanding of our high expectations and operational requirements.

**Established Relationships:** GSA holds a unique position, maintaining active, existing links with both The Trust and our intended partner school in China. This relationship ensures a level of coordination and mutual trust that a new provider could not immediately replicate.

**Safeguarding and Compliance:** Student safety is our paramount concern. GSA has already provided the comprehensive safeguarding and compliance assurances required by the Trust for international travel. Their established presence and vetted protocols within the partner school mean that the complex risks associated with overseas exchanges are significantly reduced and managed effectively.

**Operational Continuity:** Using a known and trusted supplier avoids the disruption and technical difficulties of a transition to a new provider. It ensures that the project remains focussed on student outcomes rather than administrative restructuring.

Summary

The selection of GSA is justified by their unique ability to bridge the gap between our institutions while ensuring that all safeguarding obligations are met to the highest standard. This approach represents the most secure and efficient route to delivering a safe, high-quality international experience for our students.
