DDaT25591 - UKSBS Security Operations Center

Description

UK Shared Business Services (UKSBS) is seeking to procure a hybrid managed, 24/7 Security Operations Centre (SOC) service to enhance the security posture of its NEO environments. The

primary function of this service is to provide continuous, human-led monitoring, detection, and response to security incidents, leveraging the Exabeam SIEM platform that is currently used within UKSBS. The Managed SOC will ensure rapid identification and mitigation of threats, safeguarding sensitive data and supporting business continuity across all UKSBS operations.

Through this notice we are looking for engagement with the market and feedback and what is available in general along with any elements of innovation that may need to be considered.

Please see below link which will take you to a form with a list of market engagement questions. If you could please provide feedback by 14:00pm (GMT) 21/01/2026 this will be much appreciated.

To Access the Requirements Specification which is the current version of the specification which will provide further details on the requirement you will need to contact the DDaT procurement team at UKSBS on ddatprocurement@uksbs.co.uk

Once you have received the specification you will then be able to answer the list of market engagement questions accessible through the link below:-
