I.6) Main activity

Production, transport and distribution of gas and heat

Section II: Object**II.1) Scope of the procurement****II.1.1) Title**

Contract for the provision of Gas Detection Equipment Servicing & Calibration

II.1.2) Main CPV code

- 50410000 - Repair and maintenance services of measuring, testing and checking apparatus

II.1.3) Type of contract

Services

II.1.4) Short description

Gas measurement & detection tools are critically important pieces of equipment that assist NGN operations in detecting and measuring gas. NGN are seeking to award a contract to a single supplier to service / calibrate its existing gas detection units and also purchase circa 100 gas detection units for use on the network. This urgent requirement is due to the winter contingency period where there is more operational activity with regards to gas escapes etc... requiring more resource and equipment to keep customers safe.

NGN are looking to tender out this requirement in 2023 once the winter contingency period has passed.

II.1.6) Information about lots

This contract is divided into lots: No

II.2) Description

II.2.3) Place of performance

NUTS codes

- UKC - North East (England)
- UKD - North West (England)
- UKE - Yorkshire and the Humber

II.2.4) Description of the procurement

Gas measurement & detection tools are critically important pieces of equipment that assist NGN operations in detecting and measuring gas.
