Section IV. Procedure
IV.1) Description**IV.1.1) Type of procedure**

Award of a contract without prior publication of a call for competition in the cases listed below

- The procurement falls outside the scope of application of the regulations

Explanation:

This notice provides an update on progress under the TPA to ensure transparency of the remaining pipeline of projects and to direct interested persons to the ongoing publicity relating to the hub programme. Each project is the subject of a separate Project Agreement which is entered into in accordance with the terms of the TPA. As part of the original competitive procurement process the Contract Notice stated an estimated, cumulative capital value of the projects to be awarded under the TPA being in the region of 300m GBP in the first ten years, and approximately 400m GBP for the life of the TPA including those projects awarded in the first ten years. These were stated to be anticipated values on the basis of then current estimates only. This was an indication of value provided for information purposes. The procurement documents made clear that the initial detail provided of the project pipeline was indicative for information only and that there was no guarantee or commitment as to the facilities that would be developed through the TPA. The full scope and extent of the partnering services and the TPAs was clearly delineated elsewhere in the Contract Notice and in the accompanying procurement documents, and was not linked to or to any extent constrained by the indicative cumulative estimates of value provided. The original competitive procurement process did not envisage that the agreement to be awarded would contain any limit or any other reference to any cumulative or other project values and consistent with that the TPA does not contain any such limit or reference. It is currently anticipated that the overall capital value of projects which may be procured over the next 48 months may extend to an estimated capital value of approximately 550m GBP which would bring the total value of projects award under the TPA to approximately 1200m GBP. The list of potential projects can be viewed by following the link set out in the additional information section of this notice. All such projects fall within the scope advertised through the Contract Notice and the original competitive procurement process. No change to that scope is envisaged and, for the avoidance of doubt no substantial modifications will be made to the terms of the TPA or any Project Agreement. The TPA remains a long term partnering arrangement for the development of public and community infrastructure, and no change is envisaged to the TPA period of 20 years with an option to extend for 5 years.

The hub programme is committed to ensuring value for money to the public sector, and as such welcomes any enquiries in respect of supply chain opportunities for any of the currently anticipated projects referenced by this notice. Hub South East Scotland Ltd is currently refreshing its supply chain with the intention of adding a minimum of one further Tier 1 contractor. This procurement will commence with the publication of a sub-contractor opportunity notice on the Public Contracts Scotland website. It is anticipated that this will be advertised on Public Contracts Scotland following publication of this notice. It is anticipated that any appointments to the Supply Chain of hub South East Scotland will be made by the end of May 2021.

Interested persons should contact Greig Jamieson, Commercial Director, hub South East Scotland Ltd at Greig.Jamieson@hubsoutheast.co.uk in the first instance to discuss any future opportunities.

Details of projects completed and progress to date under the hub programme can be viewed in the periodic updates published by Scottish Futures Trust (SFT), which are available here and continue to be updated on a regular basis:
