II.1.4) Short description

YPO is a Local Authority owned national public buying organisation operating since 1974 from our Wakefield Headquarters. YPO operates a market leading education supplies business with turnover circa £115 Million on average each year, plus a Framework Services business offering approaching 100 Frameworks including ICT, Energy, HR, Fleet and FM Solutions with consolidated spend upwards of £1 Billion.

As more demands and pressure are being placed on organisations including central and local governments to reduce their carbon emissions, we seek to put in place a dynamic purchasing system to make it easier for public sector organisations to acquire alternatively fuelled vehicles that produce less tailpipe emissions.

Most local authority establishments have committed to a becoming carbon neutral within the next 15 - 20 years. Reducing emissions in fleet that is run by these organisations will be a key part in the success of delivering on their carbon neutral commitments.

YPO have conducted a series of engagement activities with potential users from public sector organisations across the UK. The Research highlighted some key findings that YPO wishes to explore further. The next stage of the project is to engage with suppliers by issuing this PIN. This is to ensure that there are no gaps in the potential service scope and that our intended model is deliverable, sustainable and future proofed.
