Notice identifier: 2026/S 000-002324

Procurement identifier (OCID): ocds-h6vhtk-0603d3 ([view related notices](#))

Published 12 January 2026, 2:42pm

Scope

Description

There is a requirement to undertake a combination of on site aerial surveys and office based work. These include the following activities.

Survey Works

- Carry out survey planning activities including the production of RAMS documentation.
- Attend site on mutually agreed dates, taking into account of weather conditions, capture ground control points and perform UAS flights.
- Conduct a UAS and photography survey at the sites stated above.
- Post process the external UAS data to produce a photo realistic 3D surface model.
- Post process the 3D surface to produce a digital terrain model (removing vegetation and other fixed objects).

Computer Platform Works

- Upload the processed 3D survey information captured by to a DTO platform.

- Provide a new digital terrain model produced from the survey to allow clear visualisation and comparison with the previous survey within the platform.
- Attend a virtual meeting with Network Rails West Coast South Geotechnical Principal Route Engineering Team and CAM Project Management Team to discuss updates after each survey.
- Provide Network Rails West Coast South Geotechnical Route Engineering Team access to the D platform.
