Planning

Scotland Rooftop Solar PV

Network Rail Infrastructure Ltd

F04: Periodic indicative notice – utilities

Periodic indicative notice only

Notice identifier: 2023/S 000-002352

Procurement identifier (OCID): ocds-h6vhtk-039aab

Published 25 January 2023, 8:47pm

Section I: Contracting entity

I.1) Name and addresses

Network Rail Infrastructure Ltd

1 Eversholt Street

London

NW1 2DN

Email

john.weston@networkrail.co.uk

Country

United Kingdom

Region code

UK - United Kingdom

National registration number

2904587

Internet address(es)

Main address

www.networkrail.co.uk

Buyer's address

www.networkrail.co.uk

I.3) Communication

Additional information can be obtained from the above-mentioned address

Electronic communication requires the use of tools and devices that are not generally available. Unrestricted and full direct access to these tools and devices is possible, free of charge, at

<https://networkrail.bravosolution.co.uk/>

I.6) Main activity

Railway services

Section II: Object

II.1) Scope of the procurement

II.1.1) Title

Scotland Rooftop Solar PV

II.1.2) Main CPV code

- 45000000 - Construction work

II.1.3) Type of contract

Works

II.1.4) Short description

Network Rail (NR) operates, maintains and develops Britain's rail infrastructure. NR is one of the UK's largest purchasers of electricity, currently purchasing c. 4.4 TWh per annum (traction 3.95 TWh and non-traction 0.45 TWh). His Majesty's Government (HMG) has made legal commitments to reduce greenhouse gas emissions to Net Zero by 2050. As a government owned enterprise, NR has committed to support achieving this objective including a target to fully decarbonise its non-traction consumption by 2030.

NR wishes to engage with the potential renewable energy developers to build a portfolio of rooftop (on-site) solar PVs across Scotland's Railway. The developer will be expected to survey, fund, construct, own, operate and maintain the solar PVs on the selected rooftops. NR will grant leases to the developer for the respective sites and will purchase the renewable electricity produced via power purchase agreements for the useful life of the solar PVs (expected to be c. 25 years). The developer will be granted an exclusive development term subject to achieving agreed milestones. NR would like potential developers to contact through the NR Bravo portal to provide input to NR's plans as part of the preparations for a procurement which is expected to launch in the April 2023.

This market engagement exercise is expected to end on 8 March 2023.

II.1.6) Information about lots

This contract is divided into lots: No

II.2) Description

II.2.2) Additional CPV code(s)

- 09330000 - Solar energy
- 45200000 - Works for complete or part construction and civil engineering work
- 45210000 - Building construction work
- 45213320 - Construction work for buildings relating to railway transport
- 65400000 - Other sources of energy supplies and distribution
- 71314000 - Energy and related services

II.2.3) Place of performance

NUTS codes

- UK - United Kingdom

Main site or place of performance

Scotland

II.2.4) Description of the procurement

Network Rail (NR) operates, maintains and develops Britain's rail infrastructure. NR is one of the UK's largest purchasers of electricity, currently purchasing c. 4.4 TWh per annum (traction 3.95 TWh and non-traction 0.45 TWh). His Majesty's Government (HMG) has made legal commitments to reduce greenhouse gas emissions to Net Zero by 2050. As a government owned enterprise, NR has committed to support achieving this objective including a target to fully decarbonise its non-traction consumption by 2030.

NR wishes to engage with the potential renewable energy developers to build a portfolio of rooftop (on-site) solar PVs across Scotland's Railway. The developer will be expected to survey, fund, construct, own, operate and maintain the solar PVs on the selected rooftops. NR will grant leases to the developer for the respective sites and will purchase the renewable electricity produced via power purchase agreements for the useful life of the solar PVs (expected to be c. 25 years). The developer will be granted an exclusive development term subject to achieving agreed milestones. NR would like potential developers to contact through the NR Bravo portal to provide input to NR's plans as part of the preparations for a procurement which is expected to launch in the Summer of 2023.

This market engagement exercise is expected to end on 8 March 2023.

II.2.14) Additional information

In order to register your interest in this market engagement, please email the email address stated in this PIN.

This market engagement exercise is expected to end on 8 March 2023.

II.3) Estimated date of publication of contract notice

30 April 2023

Section IV. Procedure

IV.1) Description

IV.1.8) Information about the Government Procurement Agreement (GPA)

The procurement is covered by the Government Procurement Agreement: Yes
