General public services

Section II: Object

II.1) Scope of the procurement

II.1.1) Title

Interconnector Third Window and MPI Pilot Regulatory Framework

Reference number

2022-127

II.1.2) Main CPV code

- 66171000 - Financial consultancy services

II.1.3) Type of contract

Services

II.1.4) Short description

This procurement is to appoint a tenderer to support the Future Interconnection team within the Networks division. Support is required to develop and undertake a cost-benefit analysis (CBA) on new interconnectors and Multi-Purpose Interconnectors (MPIs) that have applied to Ofgem's Third cap and floor application Window and the MPI pilot scheme respectively. The CBA forms part of the Initial Project Assessment (IPA) to inform whether projects are granted a cap and floor regime in principle. The CBA will assess the needs case of proposed projects, taking into account their socioeconomic value, wider network and environmental impacts, and against the existing interconnector landscape. The needs case assessment ensures that projects are in consumers' interests, and along with a wider assessment of deliverability and maturity, the assessment will enable Ofgem to make informed decisions on whether projects should be awarded a cap and floor regulatory regime in principle. The successful tenderer will be expected to deliver modelling based on a pre-defined methodology developed by Arup and published by Ofgem in 2022, assessing the impacts of proposed interconnector projects, and the interactions between them and the wider energy system. The successful tenderer will then be expected to produce a publishable

II.1.6) Information about lots

This contract is divided into lots: No

II.2) Description

II.2.2) Additional CPV code(s)

- 66171000 - Financial consultancy services
