United Kingdom

Region code

UKN06 - Belfast

Justification for not providing organisation identifier

Not on any register

Internet address(es)

Main address

www.hscbusiness.hscni.net

I.4) Type of the contracting authority

Body governed by public law

I.5) Main activity

Health

Section II: Object

II.1) Scope of the procurement

II.1.1) Title

Cancer Patient Pathway System (CaPPS) Support

II.1.2) Main CPV code

- 72000000 - IT services: consulting, software development, Internet and support

II.1.3) Type of contract

Services

II.1.4) Short description

The Cancer Patient Pathway System (CaPPS) provides the Health & Social Care Trusts in NI with an IT system that enables all patients referred with a suspect cancer to be tracked through a time clinical pathway. CaPPS provides support to the Cancer Services across the HSC to meet the targets set out by Government on which the service is monitored.

CaPPS is also used for the management of Multidisciplinary team Meetings (MDTs). MDMs and effective decision making improve the quality of clinical intervention and care for people with cancer.

The CaPPS application is vital to enable the provision of cancer care across the HSC. The CaPPS system has become the only source of information and the only solution used in the management of MDTs.

II.1.6) Information about lots

This contract is divided into lots: No

II.1.7) Total value of the procurement (excluding VAT)

Value excluding VAT: £199,536

II.2) Description

II.2.2) Additional CPV code(s)

- 72000000 - IT services: consulting, software development, Internet and support

II.2.3) Place of performance

NUTS codes

- UKN - Northern Ireland

II.2.4) Description of the procurement

The Cancer Patient Pathway System (CaPPS) provides the Health & Social Care Trusts in NI with an IT system that enables all patients referred with a suspect cancer to be tracked through a time clinical pathway. CaPPS provides support to the Cancer Services across the HSC to meet the targets set out by Government on which the service is monitored.

CaPPS is also used for the management of Multidisciplinary team Meetings (MDTs). MDMs and effective decision making improve the quality of clinical intervention and care for people with cancer.

The CaPPS application is vital to enable the provision of cancer care across the HSC. The CaPPS system has become the only source of information and the only solution used in the management of MDTs.

The CaPPS application was developed in 2008 and has been supported and enhanced by Kainos over the past 15 years. Kainos have the expert knowledge and skills to continue to support and develop this application.

II.2.5) Award criteria

Price

II.2.11) Information about options

Options: No

Section IV. Procedure
