General public services

Section II: Object

II.1) Scope of the procurement

II.1.1) Title

Birmingham Commonwealth Games 2022 Traffic Management for Games Route Network and Local Area Traffic Management

II.1.2) Main CPV code

- 71311220 - Highways engineering services

II.1.3) Type of contract

Services

II.1.4) Short description

Tender documents can be obtained from the eTendering portal -

<https://wmca.bravosolution.co.uk>

Supply, manufacture, construct, implement, deliver, operate and decommission the TM required for Birmingham 2022 Commonwealth Games at competition and non-competition venues, together with any other CWG sites or locations requiring TM measures.

The services to be delivered as part of this are, but not exclusive to:

- Project Management;
- Traffic Management Services;
- Temporary traffic management equipment
- Ancillary Site Equipment;
- Manufacture and supply of statutory, wayfinding and information signage
- Specialist labour to operate equipment including Vehicle Permit Checkpoints (VPC) at all specified locations;
- Specialist labour to manage crowd movements at venues and transport hubs; and
- Non-specialist labour (traffic stewards) to manage access to venue car parks.

The West Midlands Combined Authority (WMCA) is seeking to appoint a Contractor to undertake the delivery of the Local Area Traffic Management and Parking (LATMP) plans and the Games Route Network (GRN) for the Birmingham 2022 Commonwealth Games (CWG). In addition, the appointed Contractor will provide on-going support as and when required to the TfWM Games Traffic Management (TM) team until the end of the CWG.

The objectives of the procurement are:

- The West Midlands Combined Authority wishes to appoint a Contractor to provide Traffic Management delivery services to Transport for West Midlands (TfWM) as the delivery agency for the CWG Traffic Management programme. The scope will cover a variety of disciplines to enable the Authority to fulfil its role of supplying, constructing, implementing, operating and decommissioning TM for the Games Route Network and venue traffic management requirements across the West Midlands.
- The services listed are those anticipated to deliver the CWG Traffic Management programme, however, other services not foreseen at the present time may be required as and when the need arises.

The procurement of the TM delivery Contractor is the final phase in the CWG Traffic Management programme prior to the delivery of the traffic management measures for the Games.

The detailed design of the TM has already been undertaken to set out the TM measures for the LATMP and GRN.

The Contractor is required to work with TfWM to value engineer all aspects of the TM design with the benefits for the Contractor as set out in the conditions of contract.

The TM works package has been divided into two Lots of venues. The Contractor is invited to tender for one or both Lots.

The Lots have been decided partly on a geographic basis and partly based on allocating an even quantity of requirement across the two Lots.

The TM requirement varies across the venues/sites and will include supply, installation, maintenance, operation and decommissioning.

Lot 1 anticipated Lot Value is £1.8m plus £0.5m (additional services) = £2.3m Total Lot Value

Lot 2 anticipated Lot Value is £1.6m plus £0.5m (additional services) = £2.1m Total Lot Value

Tender documents can be obtained from the eTendering portal - <https://wmca.bravosolution.co.uk>

II.1.5) Estimated total value

Value excluding VAT: £4,400,000

II.1.6) Information about lots

This contract is divided into lots: Yes

Tenders may be submitted for all lots

Maximum number of lots that may be awarded to one tenderer: 2

II.2) Description

II.2.1) Title

Lot 1

Lot No

1
