II.2.5) Award criteria

Price

II.2.11) Information about options

Options: No

II.2.13) Information about European Union Funds

The procurement is related to a project and/or programme financed by European Union funds: No

Section IV. Procedure

IV.1) Description

IV.1.1) Type of procedure

Award of a contract without prior publication of a call for competition in the cases listed below

- Extreme urgency brought about by events unforeseeable for the contracting authority

Explanation:

1. The Coronavirus disease (COVID-19) is a serious infectious respiratory disease and its

consequences pose a risk to life. The COVID-19 outbreak is a Public Health Emergency of International Concerns as declared by the World Health Organisation on 30 January 2020. The WHO Director General characterised COVID-19 as a pandemic on 11 March 2020, by this stage Europe was the centre of the pandemic.² The use of Personal Protective Equipment (PPE) is critical in safeguarding the health and lives of the care professionals treating patients with COVID-19. Delays in procuring the PPE, poses a risk to life of those on the front line and the likelihood of significantly increased death toll. 3. In March the NHS experienced severe shortages of PPE, modelling based the trajectory of other European countries forecast the need for significant and extremely rapid increase in the UK PPE capacity. Similar shortfalls in PPE stocks were identified globally. There was immense demand for PPE, requiring the UK government to actively seek and create new supply chains rapidly to meet that demand. In these circumstances, a procurement following the usual timescales under the PCR 2015, including accelerated options, was impossible. PPE manufacturers and supply chains were under immediate and unprecedented global pressure to provide products. A delay in engaging with the market by running a usual procurement process ran the risk of failing to acquire the necessary stock of PPE equipment and presenting a significant risk to life. The Department is content the tests permitting use of the Negotiated procedure without prior publication (Regulation 32(2)(c)) are met: 1 The purchasing of PPE was identified as strictly necessary to meet anticipated demand.² It is responding to COVID-19 immediately because of public health risks presenting a genuine emergency. 3 The events that led to the need for extreme urgency were unforeseeable: The Commission itself confirmed: “The current coronavirus crisis presents an extreme and unforeseeable urgency – precisely for such a situation our European rules enable public buyers to buy within a matter of days, even hours, if necessary.”⁴ 4 There was no time to run an accelerated procurement under the open, restricted or competitive procedures with negotiation that would secure products within the required timescales. 5 The situation is not attributable to the contracting authority: It has not done anything to cause or contribute to the need for extreme urgency

IV.1.8) Information about the Government Procurement Agreement (GPA)

The procurement is covered by the Government Procurement Agreement: Yes

Section V. Award of contract

A contract/lot is awarded: Yes

V.2) Award of contract

V.2.1) Date of conclusion of the contract

18 April 2020
