Tender

## **QUB/2485/23 Contract for for a Compact Multi-modal and Multi-scale Retinal Imaging System**

Queens University Belfast

F02: Contract notice

Notice identifier: 2024/S 000-002640

Procurement identifier (OCID): ocds-h6vhtk-0434ab

Published 25 January 2024, 4:36pm

### **Section I: Contracting authority**

#### **I.1) Name and addresses**

Queens University Belfast

University Road

Belfast

BT7 1NN

#### **Contact**

Shauna Ryan

#### **Email**

[Shauna.Ryan@qub.ac.uk](mailto:Shauna.Ryan@qub.ac.uk)

#### **Country**

United Kingdom

#### **NUTS code**

UKN06 - Belfast

**Internet address(es)**

Main address

[www.qub.ac.uk](http://www.qub.ac.uk)

Buyer's address

<https://in-tendhost.co.uk/queensuniversitybelfast/aspx/Home>

**I.3) Communication**

The procurement documents are available for unrestricted and full direct access, free of charge, at

<https://in-tendhost.co.uk/queensuniversitybelfast/aspx/Home>

Additional information can be obtained from the above-mentioned address

Tenders or requests to participate must be submitted electronically via

<https://in-tendhost.co.uk/queensuniversitybelfast/aspx/Home>

Tenders or requests to participate must be submitted to the above-mentioned address

**I.4) Type of the contracting authority**

Body governed by public law

**I.5) Main activity**

Education

---

## Section II: Object

### II.1) Scope of the procurement

#### II.1.1) Title

QUB/2485/23 Contract for for a Compact Multi-modal and Multi-scale Retinal Imaging System

Reference number

QUB/2485/23

#### II.1.2) Main CPV code

- 33110000 - Imaging equipment for medical, dental and veterinary use

#### II.1.3) Type of contract

Supplies

#### II.1.4) Short description

Multiple research groups within QUB are addressing the earliest changes of disease at the complex intersection between normal ageing and early pathology in AMD (Peto, Hogg, Lengyel), Diabetic Retinopathy (Peto, Stitt, Lois, Hogg, Curtis) and Glaucoma (Azuara-Blanco and Hogg), exploring interventions to delay or prevent onset. Cutting edge retinal imaging is crucial to these endeavours. Advanced retinal imaging has been at the forefront of research advances in ophthalmology; as resolution has increased, the capacity to understand disease mechanisms has advanced for all major blinding conditions. In the retina, this has advanced on two parallel fronts, firstly, improved imaging of individual retinal layers including the photoreceptor mosaic, and secondly, improved imaging of retinal vasculature and microvasculature and associated structures. At the forefront of this is the ultra-high resolution provided by adaptive optics techniques, enabling single cell resolution *in vivo*. To date, th

#### II.1.6) Information about lots

This contract is divided into lots: No

### II.2) Description

#### II.2.2) Additional CPV code(s)

- 33110000 - Imaging equipment for medical, dental and veterinary use

- 33000000 - Medical equipments, pharmaceuticals and personal care products
- 33100000 - Medical equipments

### **II.2.3) Place of performance**

NUTS codes

- UKN06 - Belfast

### **II.2.4) Description of the procurement**

Multiple research groups within QUB are addressing the earliest changes of disease at the complex intersection between normal ageing and early pathology in AMD (Peto, Hogg, Lengyel), Diabetic Retinopathy (Peto, Stitt, Lois, Hogg, Curtis) and Glaucoma (Azuara-Blanco and Hogg), exploring interventions to delay or prevent onset. Cutting edge retinal imaging is crucial to these endeavours. Advanced retinal imaging has been at the forefront of research advances in ophthalmology; as resolution has increased, the capacity to understand disease mechanisms has advanced for all major blinding conditions. In the retina, this has advanced on two parallel fronts, firstly, improved imaging of individual retinal layers including the photoreceptor mosaic, and secondly, improved imaging of retinal vasculature and microvasculature and associated structures. At the forefront of this is the ultra-high resolution provided by adaptive optics techniques, enabling single cell resolution *in vivo*. To date, these various technologies are available at QUB to support clinical trials on separate instruments, necessitating long tiring visits for patients and challenges for researchers in co-registering the different imaging types to look at the same location simultaneously. In order to address some of the above issues, Queens University wishes to procure a compact, multi-modal and multi-scale retinal imaging system, with microscopic resolution capability that is able to overcome the above-mentioned issues, in combination with laser-based imaging to help with media opacities and provide confocality. The equipment will be installed at The Wellcome Trust-Wolfson Northern Ireland Clinical Research Facility (NICRF), a joint venture between Health and Social Care, Queens University, and the University of Ulster, located in Belfast City Hospital.

### **II.2.5) Award criteria**

Price is not the only award criterion and all criteria are stated only in the procurement documents

### **II.2.7) Duration of the contract, framework agreement or dynamic purchasing system**

Duration in months

120

This contract is subject to renewal

Yes

Description of renewals

Option to extend maintenance and the purchase of consumables beyond this period for a further period of up to 10 years or the end of useful life of the equipment.

#### **II.2.10) Information about variants**

Variants will be accepted: No

#### **II.2.11) Information about options**

Options: Yes

Description of options

Option to extend maintenance and the purchase of consumables beyond this period for a further period of up to 10 years or the end of useful life of the equipment.

#### **II.2.13) Information about European Union Funds**

The procurement is related to a project and/or programme financed by European Union funds: No

---

## **Section III. Legal, economic, financial and technical information**

### **III.1) Conditions for participation**

#### **III.1.1) Suitability to pursue the professional activity, including requirements relating to enrolment on professional or trade registers**

List and brief description of conditions

N/A

#### **III.1.2) Economic and financial standing**

Selection criteria as stated in the procurement documents

#### **III.1.3) Technical and professional ability**

Selection criteria as stated in the procurement documents

---

## **Section IV. Procedure**

### **IV.1) Description**

#### **IV.1.1) Type of procedure**

Open procedure

Accelerated procedure

Justification:

Queen's will be availing of Article 27 (3), Public Contracts Regulations 2015; where a state of urgency duly substantiated by the contracting authority renders impracticable the time limit laid down in the second subparagraph of paragraph 1, it may fix a time limit which shall be not less than 15 days from the date on which the contract notice was sent

#### **IV.1.8) Information about the Government Procurement Agreement (GPA)**

The procurement is covered by the Government Procurement Agreement: Yes

### **IV.2) Administrative information**

#### **IV.2.2) Time limit for receipt of tenders or requests to participate**

Date

9 February 2024

Local time

4:00pm

**IV.2.4) Languages in which tenders or requests to participate may be submitted**

English

**IV.2.7) Conditions for opening of tenders**

Date

9 February 2024

Local time

4:10pm

Place

Belfast

---

## **Section VI. Complementary information**

### **VI.1) Information about recurrence**

This is a recurrent procurement: No

### **VI.2) Information about electronic workflows**

Electronic ordering will be used

Electronic invoicing will be accepted

Electronic payment will be used

### **VI.4) Procedures for review**

#### **VI.4.1) Review body**

Queens University Belfast

Belfast

Country

United Kingdom

#### **VI.4.3) Review procedure**

Precise information on deadline(s) for review procedures

N/A
