I.6) Main activity

Production, transport and distribution of gas and heat

Section II: Object

II.1) Scope of the procurement

II.1.1) Title

VCMA project - Fuel Bank Foundation - Further expand Fuel Bank across Northern England

II.1.2) Main CPV code

- 73000000 - Research and development services and related consultancy services

II.1.3) Type of contract

Services

II.1.4) Short description

The Fuel Bank Foundation (FBF) is an independent charity that aims to support families who pay in advance

for energy, typically via a prepayment energy meter and are at risk of self-disconnection or severe rationing or

indeed have self-disconnected. Self-disconnection is an unfortunate term: people don't choose to selfdisconnect,

when the money runs out the electricity and gas switch off too. And in the current climate we are

seeing more people than ever turn to the Foundation for much-needed support. These services are only able

to be delivered by this independent charity.

As a fully independent charitable foundation 'Fuel Bank' has supported over 1 million people - who in turn are

supplied by all UK energy suppliers - since launch eight years ago. We have developed a network of 675

partners across the country who act as an entry point into Fuel Bank. A mix of national bodies and local,

community-based organisations, what unites them and makes them part of Fuel Bank is that they target distinct

demographic groups or particular types of need and identify households in Fuel Crisis. These families are

referred into and provided with same-day help from Fuel Bank, to get 'the lights back on and the gas reflowing

by tea-time', alongside being provided by relevant and easy-to-access energy advice to give additional support

and to lower household money spent on energy. Our key target is that we provide support and help to people

within hours of them being referred to us; currently we achieve this over 98% of the time. This creates the

enabler that advice provided can be acted upon, with an aim to reduce the propensity for future referral into

Fuel Bank for continued crisis help.

II.1.6) Information about lots

This contract is divided into lots: No

II.2) Description

II.2.3) Place of performance

NUTS codes

- UKC - North East (England)
- UKD - North West (England)
