- 72263000 - Software implementation services
- 72212331 - Project management software development services

II.2.3) Place of performance

NUTS codes

- UK - United Kingdom

II.2.4) Description of the procurement

The scope of this multi lot framework agreement includes the full suite of digital technical support services for clinical systems, including services pertaining to both proprietary solutions and opensource solutions. The intention of the framework is to cover all standalone, clinical system focused digital support, required from public sector contracting authorities.

The type of Services the Authority are looking to include within remit of the framework are as follows:

- Technical architecture, development, integration;
- Specialist programme delivery,
- PMO and planning;
- Digital communications;
- Financial management;
- Specialist technology consultancy;
- Digital strategy and business case support;
- Information Governance;
- Clinical safety.

Suppliers should have significant experience in the provision of professional services pertaining to proprietary (i.e. closed-source) clinical software solutions for use in healthcare environments. These professional services must relate to the identification and/or requirements design and/or deployment and implementation of proprietary clinical

systems/software solutions.

Suppliers must provide evidence of directly relevant and hands-on experience of working with the types of technologies and platforms found within clinical environments, experience of working within the complex, digital health and care landscape.

An example of a large-scale healthcare environment may be an environment hosting over 10m discrete person records with growth of up to 1m per month, with over 700 contributing GP organisations, over 10 contributing acute trusts and other types of health and social care providers using transactional real-time messaging and bulk data transfers. Total stored data may exceed 70 TB, on average over 20 database servers and over 80 application servers, all of which may be anticipated to increase over time:

- analysis, architecture, and design services;
- clinical informatics and data modelling expertise;
- software development services;
- assurance, testing, and clinical safety services;
- technical custodian services;
- deployment of new publisher and subscriber feeds;
- population health and SQL services;
- project delivery services;
- business analyst and technical specification services.

The framework agreement will allow for both further competition and direct award to all awarded suppliers.

NHS London Procurement Partnership has received approval from NHSE CCF, the Cabinet Office's Central Digital and Data Team and Commercial Team to release this ITT.

The provisional timeline for the procurement is as follows:

Pin Released - June 2024

Engage Market - October 2024

NHS CCF / Cabinet Office OBC Approval - January 2025

ITT Released - January 2025

Evaluation of Tenders - April 2025

NHS CCF / Cabinet Office FBC Approval - May 2025

Framework Award - June 2025

Whilst NHS London Procurement Partnership does not intend to depart from the above timetable, it reserves the right to do so at any stage. NHS London Procurement Partnership reserves the right to pause, extend deadlines or cancel this process at any time.
