It is anticipated that the scheme will provide a section of new link road, through a green field site, which will eventually join up with 3rd party infrastructure and housing deliveries.

DCC's scheme extends on from the first section of link road that has been built by Persimmon Homes.

It is anticipated that the "Dawlish HiF (Housing Infrastructure Fund)" scheme that DCC are delivering includes, but not limited to, the construction of:

- A 26m span highway bridge
- Approximately 110m of highway embankments on the approaches to the bridge, including carriageway and foot/cycle paths

DCC has an expectation to deliver the full scope of the works in connection with the delivery of the infrastructure between CH310 to CH800, on behalf of TDC. DCC and TDC will aim to deliver a reduced scope of works (CH310-440 only) only if the Tender offered by all Tenderers for the full scope of the works is above the available funding budget available or below the minimum quality or TDC Full Council does not approve the additional funding to allow for its award. In addition, DCC shall not award all or some of the lots until the necessary Land and Highways Agreements have been secured.

The maximum funding available for the works is £4,900,000.00. The maximum funding available for the reduced scope of works, in the eventuality that additional funding is not approved by TDC, is £3,700,000.00.
