II.1.4) Short description

Bath and North East Somerset, Swindon and Wiltshire Integrated Care Board seeks to commission a High Intensity Use Service to people residing within the BSW geographical footprint. The service seeks to identify, engage, understand, and support people through a person-centered approach who repeatedly and often escalate a number of presentations to the emergency departments at Royal United Hospitals in Bath, Great Western Hospital in Swindon and Salisbury District Hospital in Wiltshire (and other acute and aligned resources) and are using healthcare more than, or differently than, expected for their specific needs.

The service will proactively work with a rolling cohort of people, using a person-centered, 'what matters to me' conversation and "team around the person" approach to better deliver against the agreed needs of that individual.

The key objectives are:

- Identify those at greatest risk of ED attendance and non-elective admissions.
- Proactively work with a rolling cohort of HIU people, really understanding what they need.
- Provide a de-medicalised, non-judgemental, shame and trauma informed human support to resolve any underlying social and emotional need which led to hospital attendance.

- To coordinate wellbeing and connect with other services, enrolling them to help to get to the desired end.
- Reduce ED attendances and avoidable non-elective admissions.
- Impact positively on reducing the high intensity use of healthcare.
- Reduce ambulance conveyances as a by-product of reducing ED attendances.
- Improve people's quality of life.
- Provide high quality and personalised interventions.
- Promote self-care and health and well-being of people (health coaching)
- Minimise inappropriate use of resources.
- Enable people to have a positive experience of the service.
- Support people to flourish through sustaining job opportunities, reconnecting with families, improving well-being etc.

The initial contract term will be for 2 years, with an optional extension of any period up to 1 year. The maximum budget is £1,080,000 over the 3 year term. The annual budget for 24/25 is £360,000.

The new service will commence on the 1st July 2024.

This procurement is being carried out by NHS South, Central and West Commissioning Support Unit (SCW) on behalf of the Commissioners.
