Award

Provision of PET scanning service for SE Wales

Cwm Taf Morgannwg University Health Board (as hosts of WHSSC)

F15: Voluntary ex ante transparency notice

Notice identifier: 2021/S 000-002783

Procurement identifier (OCID): ocids-h6vhtk-029246

Published 11 February 2021, 10:24am

Section I: Contracting authority/entity

I.1) Name and addresses

Cwm Taf Morgannwg University Health Board (as hosts of WHSSC)

Unit G1, Main Ave, Treforest Industrial Estate

Pontypridd

CF37 5YL

Email

Stuart.Davies5@wales.nhs.uk

Country

United Kingdom

NUTS code

UKL - WALES

Internet address(es)

Main address

<http://www.whssc.wales.nhs.uk/home>

I.4) Type of the contracting authority

Body governed by public law

I.5) Main activity

Health

Section II: Object

II.1) Scope of the procurement

II.1.1) Title

Provision of PET scanning service for SE Wales

II.1.2) Main CPV code

- 85150000 - Medical imaging services

II.1.3) Type of contract

Services

II.1.4) Short description

The provision of a PET scanning service primarily for patients in SE Wales. Service to be provided from the vicinity of Cardiff.

II.1.6) Information about lots

This contract is divided into lots: No

II.1.7) Total value of the procurement (excluding VAT)

Value excluding VAT: £24,000,000

II.2) Description

II.2.3) Place of performance

NUTS codes

- UKL2 - East Wales

Main site or place of performance

Cardiff

II.2.4) Description of the procurement

Provision of a PET Scanning service primarily for patients in SE Wales. Service must be provided from the vicinity of Cardiff. NHS Wales is seeking to commission PET scans only.

II.2.11) Information about options

Options: No

II.2.13) Information about European Union Funds

The procurement is related to a project and/or programme financed by European Union funds: No

Section IV. Procedure

IV.1) Description

IV.1.1) Type of procedure

Award of a contract without prior publication of a call for competition in the cases listed below

- The procurement falls outside the scope of application of the regulations

Explanation:

The Authority has a well-established service for the provision of PET-CT scans through existing infrastructure within the University Hospital of Wales, Cardiff. The infrastructure includes the co-location of a radioisotope production facility which, given the UK shortage in radiopharmaceutical availability, would impact service delivery significantly if production were disrupted, this would have an adverse impact on patient care because the cyclotron is used to make the radioisotopes that are used for the medical imaging and research. Once the radioisotope is produced, there is a very short period whereby it can be synthesized and injected into the patient requiring the cyclotron to be very close to the PET-CT scanner. The existing PET-CT scanning infrastructure includes patient

radioisotope uptake rooms for administering sedation or anaesthetic to patients prior to scanning procedures and recovery facilities which would be complex to replicate - these must be in close proximity to the PET-CT scanner. NHS Wales needs to maintain the requirement to develop new radioisotopes which the existing facility enables, failure to maintain this would have an adverse impact on targeting the pace of new innovative developments. The University of Wales Hospital site critically provides clinical and allied health professional services which are essential to the delivery of the PET-CT service to NHS Wales patients. The technical complications of replicating the existing services and infrastructure would be significantly complex, costly and could impact on patient treatment and safety. In addition, the research aspect of NHS Wales working with the University is a key feature of improving PET-CT services and patient pathways. Clinical demand for PET-CT scanning continues to rise with the commissioning of new clinical indications. Commissioning policy for PET scanning services is reliant upon an evidence based approach, the existing service arrangements ensures this approach is maintained and accelerated in the interests of patient care. The service can only realistically be provided within the immediate vicinity of the patient population it serves. The Contracting Authority considers that it is able to rely upon regulation 32 2 (b) (ii) of the Public Contracts Regulations 2015 (and Article 32 (2)(b) (ii) of Directive 2014/24/EU) "...competition is absent for technical reasons" as the basis for undertaking a negotiated procedure without competition.

IV.1.8) Information about the Government Procurement Agreement (GPA)

The procurement is covered by the Government Procurement Agreement: Yes

Section V. Award of contract/concession

A contract/lot is awarded: Yes

V.2) Award of contract/concession

V.2.1) Date of conclusion of the contract

11 February 2021

V.2.2) Information about tenders

The contract has been awarded to a group of economic operators: No

V.2.3) Name and address of the contractor/concessionaire

CARDIFF UNIVERSITY

CARDIFF UNIVERSITY, Queen's Buildings The Parade, Newport Road

CARDIFF

CF243AA

Country

United Kingdom

NUTS code

- UKL22 - Cardiff and Vale of Glamorgan

The contractor/concessionaire is an SME

No

V.2.4) Information on value of contract/lot/concession (excluding VAT)

Total value of the contract/lot/concession: £24,000,000

Section VI. Complementary information

VI.3) Additional information
