The Government Security Classifications (GSC) Policy came into force on 2 April 2014 and describes how HM Government classifies information assets to ensure they are appropriately protected. It applies to all information that Government collects, stores, processes, generates or shares to deliver services and conduct business.

Cyber Essentials is a mandatory requirement for Central Government contracts which involve handling personal information or provide certain ICT products/services. Government is taking steps to reduce the levels of cyber security risk in its supply chain through the Cyber Essentials scheme. The scheme defines a set of controls which, when implemented, will provide organisations with basic protection from the most prevalent forms of threat coming from the internet. To participate in this procurement, bidders must be able to demonstrate they comply with the technical requirements prescribed by Cyber Essentials, for services under and in connection with this procurement.

Refer to <https://www.ncsc.gov.uk/information/cyber-essentials-faqs> for more information.

Some purchases under this framework Agreement may have requirements that can be met

under this Framework Agreement but the purchase of which may be exempt from the Procurement Regulations (as defined in Attachment 1 – About the framework within the invitation to tender documentation). In such cases, Call-offs from this Framework will be unregulated purchases for the purposes of the Procurement Regulations, and the buyers may, at their discretion, modify the terms of the Framework and any Call-off Contracts to reflect that buyer's specific needs.

In each Lot, CCS reserves the right to award a framework to any bidder whose final score is within 1% of the last awarded position.

Minimum standards of reliability:

CCS may also assess whether the selection criteria (in respect of III.1.3 Technical and professional ability), as set out in the procurement documents, is met on request from a buyer prior to the proposed conclusion of a call-off contract with a value in excess of 20 000 000 GBP.

Registering for access:

This procurement will be managed electronically via the eSourcing suite. This will be the route for sharing all information and communicating with bidders. If you have recently registered on the eSourcing suite for another CCS procurement you can use the same account for this new procurement. If not, you will first need to register your organisation on the portal.

Use the following link for information on how register and use the eSourcing tool:
