Future Life Jackets, Buoyancy Aids and Floatation Devices

II.2) Type of contract and location of works, place of delivery or of performance

Services

Service category No 14: Research and development services and evaluation tests

NUTS code

- UKK11 - Bristol, City of

II.4) Short description of nature and scope of works or nature and quantity or value of supplies or services

Defence Equipment and Support (DE&S), Fire and Escape Systems (FES) team is seeking to engage with potential Suppliers to support the design and development of future Military and MOD Civilian Life Jacket, Floatation and Buoyancy Systems.

Equipment Rationalisation

Rationalisation of the existing range of equipment's and systems used to meet the varied user requirements.

Design and Development Support Services

Design and development of future Military and MOD Civilian Life Jacket, Floatation and Buoyancy Systems. This requires an innovative approach to meeting the requirements of the front-line Users across the Air, Maritime and Littoral environments whilst also seeking to reduce the complexity and variety of systems in-service.

The MOD is undertaking a holistic review of the current in-service water safety equipment to ensure there is a continuance to minimise Risk to Life (RtL) for personnel, whilst seeking to ensure that the capability is supported in the most effective and efficient manner. Future systems are to be compatible with both current and future operational needs, with due consideration to legislative requirements such as the International Convention for the Safety Of Life At Sea (SOLAS), where appropriate.

In support of the above, we intend to hold a virtual Market Engagement Event where

potential Suppliers will be provided with additional background. There will also be an opportunity to ask questions, as well as to provide feedback on the Authority's approach.

Estimated value excluding VAT

Range: between £20,000,000 and £30,000,000

Lots

This contract is divided into lots: No

II.5) Common procurement vocabulary (CPV)

- 79933000 - Design support services

Additional CPV code(s)

- 39525300 - Life jackets

II.6) Scheduled date for start of award procedures and duration of the contract

Scheduled date for start of award procedures: 1 December 2022

II.7) Additional information

This requirement was previously advertised under PIN 2019/S 203-495427

The intention is to hold a virtual Market Engagement Event in mid-March 2021. Potential Suppliers wishing to register for attendance at this event should express their interest via email to the Contracting Authority email address provided by 12:00 hours 05 March 2021.

The issue of this Prior Information Notice and any Early Market engagement with Potential Suppliers does not commit the Authority to any future procurement in relation to the stated requirement nor does it prevent any subsequent change in the stated requirement.

Potential Suppliers who do not take part in the Market Engagement Event will not be precluded from submitting a response to any future resulting contract notice and/or DPQQ

Section VI: Complementary information

VI.1) Information about European Union funds

The contract is related to a project and/or programme financed by European Union funds:
No

VI.2) Additional information

The Authority reserves the right to amend any condition related to security of information to reflect any changes in national law or government policy. If any contract documents are accompanied by instructions on safeguarding classified information (e.g. a Security Aspects Letter), the Authority reserves the right to amend the terms of these instructions to reflect any changes in national law or government policy, whether in respect of the applicable protective marking scheme, specific protective markings given, the aspects to which any protective marking applies, or otherwise.
