VII.1.7) Name and address of the contractor/concessionaire

Allied Publicity Services (Manchester) Limited

Cheshire

Country

United Kingdom

NUTS code

- UK - United Kingdom

The contractor/concessionaire is an SME

No

VII.2) Information about modifications

VII.2.1) Description of the modifications

Nature and extent of the modifications (with indication of possible earlier changes to the contract):

This contract was procured under a further competition carried out under Lot 2 of the Crown Commercial Service Print Management Services Framework (RM6170) (the Framework).

The Contract is being varied as follows:

- a) Introduction of an annual price review for paper-based products effective from the first anniversary of the contract (17 March 2023) on identical terms as the price review provisions at Framework level (Paper Price Increase Variation)
- b) Amendment of the existing price review mechanism within the contract in relation to non-paper price products to be on identical terms as the relevant provisions of the Framework, but the trigger date for the first review of Charges for these prices remains the same.
- c) Introduction of Additional Charging Units to be effective from 17 October 2022 (the start of live production) which were not included within the original contract but which relate to additional services that the Supplier has been performing (ACU Variation)
- d) A change in the type of envelopes under the Contract required by the Supplier (Envelope Variation)
- e) DWP is imposing additional requirements on the Supplier in relation to financial reporting and contract management (Financial Reporting Variation).

VII.2.2) Reasons for modification

Need for modification brought about by circumstances which a diligent contracting authority/entity could not foresee.

Description of the circumstances which rendered the modification necessary and

explanation of the unforeseen nature of these circumstances:

Paper Price Increase Variation

This variation allows for an increase in price for paper-based products which mirrors what is available at framework level to counter the effects of the war in Ukraine on paper prices.

ACU Variation

These charging units relate to “additional services” not included within the scope of the original contract. These services are intrinsically linked to the current services provided by the supplier. The value of this modification is less than 50% of the original contract value. Thus it falls within scope of Regulation 72(1)(b).

Envelope Variation

DWP requires different envelopes than those specified and the envelopes required are more expensive. Therefore the specification and charges will be adjusted to include the revised envelope type. DWP regard this modification as non-substantial under Regulation 72(1)(e).

Financial Reporting Variation

DWP is introducing additional obligations on the Supplier regarding financial reports it must provide to DWP.

VII.2.3) Increase in price

Updated total contract value before the modifications (taking into account possible earlier contract modifications, price adaptations and average inflation)

Value excluding VAT: £27,400,000

Total contract value after the modifications

Value excluding VAT: £32,060,000
