Section VI. Complementary information

VI.3) Additional information

The Data Quality Solution which was procured in 2014 was designed to help practices improve their data quality and to help underpin the delivery of high quality patient care by being able to interface directly with GP systems. Audit+ provides the same audit capabilities for all practices, and therefore, it is used by all practices within Wales. Audit+ provides a common platform in Wales, which can readily be built upon to provide additional tailored modules produced directly by NWIS to support practices in delivering the emerging GP clinical agenda (and its associated data requirements) in Wales. At present, the solution is also pivotal and intrinsic to supporting the active management of the national pandemic as it provides data for the secondary user for:

- COVID-19 Shielded Patient List identification;
- COVID-19 Vaccination Programme;
- COVID-19 risk stratification of the entire General Practice population in Wales;
- Public Health Wales pandemic disease surveillance systems (COVID-19, flu, measles, mumps etc)
- SAIL for research, COVID-19 modelling etc

VII.2) Information about modifications

VII.2.1) Description of the modifications

Nature and extent of the modifications (with indication of possible earlier changes to the contract):

Extension of contract term for twelve (12) months to 30th June 2022. This follows a previous two (2) year extension to 31th June 2021.

VII.2.2) Reasons for modification

Need for additional works, services or supplies by the original contractor/concessionaire.

Description of the economic or technical reasons and the inconvenience or duplication of cost preventing a change of contractor:

the procured Audit+ solution with write back capability is so bespoke and embedded within NWIS' national product set that it would present significant technical difficulties, inconvenience and disproportionate costs to employ a separate contractor to deliver the existing service and to migrate on to a replacement solution. In addition, the extension is necessary to ensure that continuity of this critical component in the delivery of the emerging clinical agenda (and its associated data requirements) in Wales, whilst also providing GPs with the essential data required to manage the Covid-19 pandemic, while NWIS seeks to review the market and re-procure a new solution. In the alternative NWIS also relies on Art.72(1)(c), the unforeseen circumstances being the delay to the re-procurement and the Covid-19 crisis.

VII.2.3) Increase in price

Updated total contract value before the modifications (taking into account possible earlier contract modifications, price adaptations and average inflation)

Value excluding VAT: £4,690,381

Total contract value after the modifications

Value excluding VAT: £5,290,381
