VII.2) Information about modifications

VII.2.1) Description of the modifications

Nature and extent of the modifications (with indication of possible earlier changes to the contract):

Extension of contract term for two years to 30th June 2023.

VII.2.2) Reasons for modification

Need for additional works, services or supplies by the original contractor/concessionaire.

Description of the economic or technical reasons and the inconvenience or duplication of cost preventing a change of contractor:

the sudden and unforeseen exit from the Authority's data centre in Blaenavon, which was only communicated to the Authority in the summer of 2020 has necessitated the “pausing” of the re-procurement of the Data Centre in Newport. As a consequence of the Blaenavon data centre exit, undertaking a procurement at this point with the possibility of buying an alternative data centre for Newport data centre DC2 introduce considerable additional risk given that exit/transition arrangements are currently in process in respect of the Blaenavon Data Centre. Conducting the transition and migration of both data centres at the same time would severely impact the provision of critical services to NHS Wales during the transition period, putting significant pressure not only on the 3rd party suppliers but also on NWIS resources.

VII.2.3) Increase in price

Updated total contract value before the modifications (taking into account possible earlier contract modifications, price adaptations and average inflation)

Value excluding VAT: £6,834,640

Total contract value after the modifications

Value excluding VAT: £9,234,640
