uk

II.2.4) Description of the procurement

To carry out a tender process for an Electronic Point of Sale EPOS Hardware and Software System. The EPOS system should offer fast, secure, and reliable payment service to suit all member needs in both retail and hospitality. The system should add value to each operation, be innovative, increase revenues, speed up transactions, boost customer engagement and enhance customer experience. Such a system will help staff work more efficiently and productively, providing innovative technology both front and back of house. EPOS hardware systems are the electronic devices used to process transactions and capture data at a point of sale. EPOS software helps to ensure accurate pricing, faster transactions, reduces human error and improves data integrity.
