Published 14 January 2026, 9:16am

### Changes to notice

This notice has been edited. The [previous version](#) is still available.

Description/Scope has been readded as was cut off. Full description:

Enabling Innovation Framework 5

The EIF 5 Scope is primarily around problem definition and framing, studies, developing functional requirements, preparing business cases and targeted project and task interventions.

In summary the scope of the EIF encompasses:

- Support to problem framing: establishing clarity over needs and priorities and providing technical / digital support;
- Help in establishing project purpose, principles, roles and tasks before the Detail is decided
- Problem definition: help in translating service requirements into clear functional /

technical / digital requirements;

- Support to studies;
- Support for problem solving and recovery of stalled projects through enabling services or focussed technical and digital support / solutions;
- Support to establishing correct measures, metrics and targets for success;
- Improving understanding of supply chain capability;
- Supporting challenge to unnecessarily bespoke solutions, application of unnecessary standards and "specialist" requirements through enabling services or focussed technical / digital solutions;
- Support to constructive challenge of ongoing requirements and cost estimates;
- Relationship based: allowing the supply chain to offer up new technologies and innovations, which have not been solicited by a Sellafield Ltd client that may bring significant return on investment.

Sellafield Ltd intends to appoint 10 suppliers under a single lot. The framework agreements will be based on Sellafield standard terms and conditions.

## **Description**

Enabling Innovation Framework 5

The EIF 5 Scope is primarily around problem definition and framing, studies, developing functional requirements, preparing business cases and targeted project and task interventions.

In summary the scope of the EIF encompasses:

- Support to problem framing: establishing clarity over needs and priorities and providing technical / digital support;
- Help in establishing project purpose, principles, roles and tasks before the Detail is decided
- Problem definition: help in translating service requirements into clear functional / technical / digital requirements;
- Support to studies;
- Support for problem solving and recovery of stalled projects through enabling services or focussed technical and digital support / solutions;
- Support to establishing correct measures, metrics and targets for success;
- Improving understanding of supply chain capability;
- Supporting challenge to unnecessarily bespoke solutions, application of unnecessary standards and "specialist" requirements through enabling services or focussed technical / digital solutions;
- Support to constructive challenge of ongoing requirements and cost estimates;
- Relationship based: allowing the supply chain to offer up new technologies and innovations, which have not been solicited by a Sellafield Ltd client that may bring significant return on investment.

Sellafield Ltd intends to appoint 10 suppliers under a single lot. The framework agreements will be based on Sellafield standard terms and conditions.

## **Commercial tool**

Establishes a framework

### **Total value (estimated)**

- £20,000,000 excluding VAT
- £24,000,000 including VAT

Above the relevant threshold

### **Contract dates (estimated)**

- 30 June 2026 to 29 June 2030
- 4 years

### **Main procurement category**

Services

### **CPV classifications**

- 71330000 - Miscellaneous engineering services
- 71340000 - Integrated engineering services
- 71300000 - Engineering services
- 71356000 - Technical services
- 79421000 - Project-management services other than for construction work

### **Justification for not using lots**

Dividing the framework into rigid lots inhibits innovation by compelling ideas to be categorised rather than freely developed.

## **Framework**

### **Maximum number of suppliers**

10

### **Maximum percentage fee charged to suppliers**

0%

### **Justification for framework term over 4 years**

N/A

### **Framework operation description**

The process for call-off contracts under the Framework includes self-determination, direct award and mini competition as detailed in Appendix 9 Specification section 5, available via the Documents folder within the Atamis record. The governance arrangements will be compliant with the principal obligations of PA23.

### **Award method when using the framework**

Either with or without competition

### **Contracting authorities that may use the framework**

Establishing party only

## **Participation**

### **Legal and financial capacity conditions of participation**

The legal and financial capacity requirements are outlined in Appendix 9 PA23 Conditions of Participation v2. This document can be accessed through the Documents folder within the Atamis opportunity.

### **Particular suitability**

Small and medium-sized enterprises (SME)

---

## **Submission**

### **Tender submission deadline**

5 February 2026, 12:00pm

### **Submission address and any special instructions**

<https://atamis-2464.my.site.com/s/Welcome>

### **Tenders may be submitted electronically**

Yes

## Languages that may be used for submission

English

## Award decision date (estimated)

17 June 2026

## Recurring procurement

Publication date of next tender notice (estimated): 17 June 2026
