VII.2) Information about modifications

VII.2.1) Description of the modifications

Nature and extent of the modifications (with indication of possible earlier changes to the contract):

A seven week extension to the current expiry date will minimise potential disruption during the end of the financial year.

VII.2.2) Reasons for modification

Need for additional works, services or supplies by the original contractor/concessionaire.

Description of the economic or technical reasons and the inconvenience or duplication of cost preventing a change of contractor:

The current framework expires two weeks before the end of the financial year, which is a critical period for public sector organisations using this framework. This extension will minimise any potential disruptions caused by establishing a new framework during a business critical time and will provide better alignment to the end of financial year spend going forward. A process to renew the current framework is currently underway.

VII.2.3) Increase in price

Updated total contract value before the modifications (taking into account possible earlier contract modifications, price adaptations and average inflation)

Value excluding VAT: £25,000,000

Total contract value after the modifications

Value excluding VAT: £36,000,000
