School's Vision & Ethos

Our vision is for all students to have a love of learning, a positive and resilient approach with a strong sense of community.

Each individual student will be encouraged to be aspirational, prepared for their future and inspired to make a difference.

Key Statistics about the school

The school is a selective school in Sutton Coldfield, West Midlands teaching girls 11-18, taking in students from all over Birmingham and the wider area coming from all backgrounds. In the recent Times Parent Power list, the School was listed in the top 30 schools in the Country and 4 in the West Midlands. At the last census there were just over 1,200 students of which around 8% are eligible for Free School Meals and there are over 100 staff.

In 2022-23 Catering income was around £300k with a further increase of sales of around 10% in Autumn Term 2023-24.

Objectives

We want our catering company to offer a high quality service to all our students, staff and visitors that matches the educational experience they receive on a daily basis all of the essential abilities and skills to provide an outstanding catering service to our students, staff and visitors at our school.

You should have the knowledge of how to provide exceptional dining experiences in schools, manage staff and the whole catering function.

Providing a high quality and reliable catering service has a major effect on the whole learning experience for all our students, staff and visitors and this is why the School is passionate about having very high quality catering facilities, with excellent food choices which are nutritionally balanced for everyone. Having excellent customer care, the caterer should be polite, diplomatic and thoughtful while dealing with all our students, staff and visitors.

The way you operate in our school is crucial to ensure customer satisfaction and to encourage students continue to use the facilities and enjoy the meal times.

Your menus and pricing structure need to be clear to the students so that they can understand exactly what the offer is to them offering great value to students.

We are looking for a refreshing and innovative approach that reflects, amongst other things, the changing profile of student life and their food preferences and types and preferred styles of dining including a wide range of vegan and vegetarian options which is very popular with our student body.

It's essential to the school that the contractors bidding for this tender think broadly about all issues and not just the core catering service to compete and be successful in obtaining the contract of the school. We would like the contractors to always be on the lookout for new ways of doing things, coming up with new solutions for many common problems such as how you have dealt with the cost of living crisis in managing price increases

Contractors are requested to ensure they consider all the aspects of service delivery and think carefully about the catering requirements.

The School already knows that the successful provision of catering services is very much dependent on the development of a good working relationship between the Client of a facility and the contractor's catering manager and catering team on site. The contractor is expected to use its best endeavors to cultivate such a relationship to benefit the smooth running of each establishment.
