#### **II.1.3) Type of contract**

Services

#### **II.1.4) Short description**

Energy Systems Catapult have set up a DPS for working internationally to enable ESC to continue its work accelerating energy systems around the world, as well as in the UK. The DPS is intended to provide a centralised platform to enable ESCs reach to expand and to be able to procure services for projects based outside of the U.K.

Currently the ESC is working in India on a range of activities, to showcase UK clean energy innovation and expertise. Currently the focus is primarily on the Innovating for Transport and Energy Systems (ITES) initiative. ITES is a collaboration between leading research organisations from India and the UK to address the obstacles to action on decarbonising transport and energy systems. In addition to ITES, it is expected that ESC will do additional projects on energy systems in India. In order to better deliver projects in India and to maximise impact, ESC is looking to collaborate with Indian partners and is therefore establishing this DPS.

ESC hopes to have more projects in the future based in other countries, at which time further Lot(s) may be added to this DPS.

Lots:

LOT 1 - Indian Energy Systems Activity Support

Sub Lots:

1.1 - Identifying and mapping stakeholders, activities and initiatives

1.2 - Stakeholder engagement and networking

1.3 - Research and identifying challenges and opportunities in transport and energy sectors

1.4 - Pilot development and support

1.5 - Funding, sponsorship and investment

1.6 - Dissemination, events, communications & branding

1.6.1 - Event support

1.6.2 - Strategic support for dissemination & branding, dissemination campaigns

1.6.3 - Development of dissemination outputs

1.6.4 - Diagnosis support

1.7 - Support to innovators and incubators
