Provider assistance was also sought for relevant documentation. There were no conflicts of interest identified amongst the decision makers.

The criteria used to award the contract were mapped to five key areas, each carrying an equal weight of 20%. This balanced approach ensured that every critical aspect of the service was considered thoroughly. The criteria were:

1. Quality and Innovation (20%): Emphasising the importance of delivering high-quality care and the potential for new and significant improvements through proven innovations in care delivery.
2. Value (20%): Focusing on balancing costs with overall benefits and financial implications, ensuring the service was cost-effective without compromising quality.
