I.4) Type of the contracting authority

Ministry or any other national or federal authority

I.5) Main activity

General public services

Section II: Object

II.1) Scope of the procurement

II.1.1) Title

Services for the Upgrade and installation of Energy Devices to Premises associated with Optimised Retrofit Programme Legacy Tranches

Reference number

D225/2023/2024

II.1.2) Main CPV code

- 71314000 - Energy and related services

II.1.3) Type of contract

Services

II.1.4) Short description

Installation and upgrade SERO energy devices to be project managed, supplied and retrofitted into homes to transmit data from retrofitted homes which in turn could inform future residential decarbonisation policy approaches

II.1.6) Information about lots

This contract is divided into lots: No

II.1.7) Total value of the procurement (excluding VAT)

Value excluding VAT: £1,500,000

II.2) Description

II.2.2) Additional CPV code(s)

- 38551000 - Energy meters

II.2.3) Place of performance

NUTS codes

- UKL - Wales

Main site or place of performance

Wales

II.2.4) Description of the procurement

The Welsh Government's Optimised Retrofit Programme (ORP) works with Registered Social Landlords (RSLs) and local authorities (LA's) with the aim of installing a variety of home decarbonisation measures to existing social housing stock. It considers the fabric or materials that homes are made from, and the way heat and energy are stored and reaches homes. SERO were originally contracted for energy devices to be project managed, supplied and retrofitted into homes, the installed energy devices transmit data from retrofitted homes which in turn could inform future residential decarbonisation policy approaches. This contract with Welsh Government and Sero is for the support installation and upgrade of the previous devices for the purpose of information & data gathering within social housing premises associated with the Optimised Retrofit Programme. The energy devices (known as BEE Version 2's need to be upgraded and installed to 2,321 energy devices belonging to an Optimised Retrofit Consortium of Social Housing landlords.

II.2.11) Information about options

Options: No

II.2.13) Information about European Union Funds

The procurement is related to a project and/or programme financed by European Union funds: No

II.2.14) Additional information

This is for a 1 year contract

Section IV. Procedure

IV.1) Description

IV.1.1) Type of procedure

Negotiated without a prior call for competition

- Additional deliveries by the original supplier

Explanation:

The Negotiated Procedure Regulation 32(2)(5)(b) of the Public Contract Regulations 2015 applies:

(32) Use of the negotiated procedure without prior publication

(2) The negotiated procedure without prior publication may be used for public works contracts, public supply contracts and public service contracts in any of the following cases:-

Additional grounds relevant to public supply contracts

(5) The negotiated procedure without prior publication may be used for public supply contracts—

(b)for additional deliveries by the original supplier which are intended either as a partial replacement of supplies or installations or as the extension of existing supplies or installations where a change of supplier would oblige the contracting authority to acquire supplies having different technical characteristics which would result in incompatibility or disproportionate technical difficulties in operation and maintenance;

By upgrading existing SERO BEE's (a version of energy devices that only SERO own) WG will avoid the risk of disproportionate technical difficulties in operation and maintenance. In March 22 POBL (the main lead grant holder for the landlords) established the collaboration agreement with SERO for energy devices (in line with Welsh Government data requirements) to be project managed, supplied and retrofitted into homes. The purpose of the installed energy devices was to transmit data from retrofitted homes which in turn could inform future residential decarbonisation policy approaches. During the timeframe of the legacy ORP tranches, the supply and installation of the energy devices conducted by SERO to the landlord's housing stock was significantly impacted by chip shortages, COVID, and delays in undertaking the retrofit works, and queries regarding GDPR requirements. The energy devices (known as BEE Version 2's) have been impacted by a change in technology. There are more than 2000 of the devices affected with their operability compromised by external factors outside the scope and control of the Consortium and SERO.

IV.1.8) Information about the Government Procurement Agreement (GPA)

The procurement is covered by the Government Procurement Agreement: Yes

Section V. Award of contract/concession

Contract No

D286/2022/2023

A contract/lot is awarded: Yes

V.2) Award of contract/concession

V.2.1) Date of conclusion of the contract

23 January 2024

V.2.2) Information about tenders

The contract has been awarded to a group of economic operators: No

V.2.3) Name and address of the contractor/concessionaire

Sero Life Limited

Westgate House, Womanby Street,

Cardiff

CF10 1BR

Country

United Kingdom

NUTS code

- UKL - Wales

The contractor/concessionaire is an SME

Yes

V.2.4) Information on value of contract/lot/concession (excluding VAT)

Total value of the contract/lot/concession: £1,500,000

Section VI. Complementary information

VI.3) Additional information
