II.1.4) Short description

Ordnance Survey currently maintains Transport Networks Roads data for Great Britain to a specified currency in a National Geographic Database. The maintenance programme includes topographic and topological updates for a significant number of attributes. Ordnance Survey is now in a period of enhancing our Transport Infrastructure data to include the locations of bus and cycles lanes, as well as streetlights, Motorway Markers and Emergency Telephones as attributes to road links for all of GB (England, Scotland and Wales).

Once the data has been received and validated, it will be linked to OS data via a reference ID. The data may be used in the generation of products for both the public and private sector.
