Price

II.2.11) Information about options

Options: No

II.2.13) Information about European Union Funds

The procurement is related to a project and/or programme financed by European Union funds: No

Section IV. Procedure

IV.1) Description

IV.1.1) Type of procedure

Award of a contract without prior publication of a call for competition in the cases listed below

- The procurement falls outside the scope of application of the regulations

Explanation:

This was a Direct Award with an extant Single Source Justification for utilisation of the existing technology.

The CCS framework used to enable award of the CDMT work lapsed and was replaced by RM6100 Technology Services CCS Framework, with Operational Services - Application and Data Management sitting in Lot 3d. CACI Ltd are on the framework in their own right and Lot 3d offers the ability to undertake a direct award where, among other justifications 'Direct award will be suitable to meet a range of customer needs – for example, simple and easily defined requirements where no additional benefit would be derived from a further competition.'

The award process is facilitated through a catalogue offering, which CACI Ltd has agreed to create at a firm price, in the GeM catalogue.

Given the work already undertaken to develop the CDMT and the new functionality will be an extension to the existing tool and will re-use that system architecture, a direct award is justified.

IV.1.8) Information about the Government Procurement Agreement (GPA)

The procurement is covered by the Government Procurement Agreement: No

IV.2) Administrative information

IV.2.9) Information about termination of call for competition in the form of a prior information notice

The contracting authority will not award any further contracts based on the above prior information notice

Section V. Award of contract
