8. A service provider and supply chain members that can effectively manage multi-site stakeholder expectations; and

9. The provision of a flexible service delivery model, that considers the potential change in

property footprint scheduled throughout the duration of the contracts.

The Authorities sought a Service Provider that is able to deliver the above objectives within a healthcare environment, embracing and working in partnership with both Trusts and their clients, so future aspirations can be exceeded.

Furthermore, the Authorities sought a Service Provider that appreciates that expectations and priorities of the catering service are unique to each type of property, and thus shall adopt an approach that is properly specific, proactive and responsive.
