### **Scope**

### **Description**

The project will establish a long-term partnership to deliver a countywide Repair & Reuse service. The service will manage the assessment, collection, sorting, repair and resale of reusable household items from five Household Recycling Centres and direct resident collections. The model aims to reduce landfill, increase reuse rates, embed industry-standard assessment methods, and develop a sustainable operational partnership with a service provider.

The contract will also include a separate Lot for a Bulky Waste Collection Service
