II.1.1) Title

Occupational Health Services

II.1.2) Main CPV code

- 85140000 - Miscellaneous health services

II.1.3) Type of contract

Services

II.1.4) Short description

Magnox Ltd has changed its brand and from 31.10.2023 is known as Nuclear Restoration Services (NRS). The Company registered name will remain as Magnox Limited for the time being and we will provide further details when this officially changes.

A world leader in its field, NRS is responsible for safely decommissioning the first generation nuclear and research sites across the UK and restoring the sites for all our futures. Our new brand strategy represents the joining together of the Magnox sites and Dounreay. It also prepares us to welcome the seven advanced gas-cooled reactor sites (AGRs), currently managed by EDF, for decommissioning, as well as other future missions.

Magnox Limited with Dounreay is an operating company of the Nuclear Decommissioning Authority (NDA). We are responsible for decommissioning 14 nuclear sites and one hydro-electric plant, with sites spread across the UK. Many of our sites are in low population areas

To support our growth and delivery mission, Magnox with Dounreay require an Occupational Health Service. This has historically been a partially outsourced model with the elements outlined in the draft scope being provided by a single Supplier. We are using this PIN to explore the suitability of splitting up the service with multiple Suppliers.

Tenderers must register their interest, obtain further information for this notice and submit their response via the Nuclear Decommissioning Authority and Sellafield Ltd.'s e-procurement system (ATAMIS). This can be found at the following address:

<https://one-nda.force.com/s/Welcome>

Initial registration of your company is achieved by using the above site and then clicking on

"Register Here". The Occupational Health - Prior Information Notice can be found within reference C17668
