I.4) Type of the contracting authority

Body governed by public law

I.5) Main activity

Health

Section II: Object

II.1) Scope of the procurement

II.1.1) Title

Rapid Molecular Testing Service for Public Health Wales

II.1.2) Main CPV code

- 33696500 - Laboratory reagents

II.1.3) Type of contract

Supplies

II.1.4) Short description

Public Health Wales, in advance of a tender, would like to invite companies to provide their bespoke options for a rapid molecular service based on 2 lots for Wales at a user engagement session on the 27th February 2023 at Public Health Wales, 2 Capital Quarter, Tyndall Street, Cardiff, CF10 4BZ.

-Lot 1 being essential supporting pneumonia and meningoencephalitis syndromic algorithm.

-Lot 2 being desirable supporting bone and tissue; gastrointestinal and sexual transmitted syndromic algorithm.

Interested parties will be offered a user engagement session, further details available from the contracting authority.

II.1.6) Information about lots

This contract is divided into lots: Yes

II.2) Description

II.2.1) Title

Essential supporting pneumonia and meningoencephalitis syndromic algorithm.

Lot No

1

II.2.2) Additional CPV code(s)

- 33696500 - Laboratory reagents

II.2.3) Place of performance

NUTS codes

- UKL - Wales

Main site or place of performance

All Wales service.

II.2.4) Description of the procurement

Essential supporting pneumonia and meningoencephalitis syndromic algorithm.

* Offer must include all instruments, consumables, reagent, support, service and maintenance.

* Consideration needs to be taken into capital money investment by Welsh Government in new equipment (BioFire Film Arrays; ePlex and Cepheid) to support rapid diagnosis in the pandemic as these still have an expected shelf life of another 5 years.

* In addition, we have some reagent rental instruments in the Network.

* Minimal processing time will be required for specimen investigation.

* Speed of turnaround time for result will be essential.

* Multiplex will be preferred over singleplex targets.

* Software interpretation of result and interface to LIMS is essential.

* High negative predictive, Sensitivity and Specificity is essential.

* Reduce the need for specialist technical interpretation and handling.

* Instruments and associated reagents must be compliant with UK Quality marking for equipment, reagents and consumables.

* The service is to be fully functional by 1st July 2023.

* The current estimates on numbers is a minimum of 20 rapid test per site in the network.

* There are 12 Public Health Wales sites with potential to include 3 non-Public Health Wales sites.

* Maintain and provide the ability to meet the increase demand and a robust supply chain.

* Support our adherence to antibiotic sensitivity testing and reporting guidelines.

II.2.13) Information about European Union Funds

The procurement is related to a project and/or programme financed by European Union funds: No

II.2) Description

II.2.1) Title

Desirable supporting bone and tissue; gastrointestinal and sexual transmitted syndromic algorithm.

Lot No

2

II.2.2) Additional CPV code(s)

- 33696500 - Laboratory reagents

II.2.3) Place of performance

NUTS codes

- UKL - Wales

Main site or place of performance

All Wales service.

II.2.4) Description of the procurement

Desirable supporting bone and tissue; gastrointestinal and sexual transmitted syndromic algorithm.

* Offer must include all instruments, consumables, reagent, support, service and maintenance.

* Consideration needs to be taken into capital money investment by Welsh Government in new equipment (BioFire Film Arrays; ePlex and Cepheid) to support rapid diagnosis in the pandemic as these still have an expected shelf life of another 5 years.

* In addition, we have some reagent rental instruments in the Network.

- * Minimal processing time will be required for specimen investigation.
- * Health and Safety during the processing must minimise any potential incident, hazard or risk.
- * Speed of turnaround time for result will be essential.
- * Multiplex will be preferred over singleplex targets.
- * Software interpretation of result and interface to LIMS is essential.
- * High negative predictive, Sensitivity and Specificity is essential.
- * Reduce the need for specialist technical interpretation and handling.
- * Instruments and associated reagents must be compliant with UK Quality marking for equipment, reagents and consumables.
- * The service is to be fully functional by 1st July 2023.
- * The current estimates on numbers is a minimum of 20 rapid test per site in the network.
- * There are 12 Public Health Wales sites with potential to include 3 non-Public Health Wales sites.
- * Maintain and provide the ability to meet the increase demand and a robust supply chain.
- * Support our adherence to antibiotic sensitivity testing and reporting guidelines.
- * A robust and resilient support post service implementation.
