DN803132

Description

Homes England requires the supply of nutrient mitigation credits to support a development within the Stodmarsh catchment in Kent. The credits must comply with Natural England's requirements and local planning authority obligations. The development is located in Canterbury and will discharge foul flows to Canterbury wastewater treatment works.

Please note the value is based on 25% of the expected homes being occupied by pre-April 2030 and is an estimate only.

The dates provided for the procurement process and contract start dates are estimates only and are likely to change following this pre-market engagement exercise.

This is a pre-market engagement exercise to understand the market and receive some

feedback on our requirements.

This Pre-Market Engagement is not a call to competition.

Total value (estimated)

- £2,000,000 excluding VAT
- £2,400,000 including VAT

Above the relevant threshold
