# I.6) Main activity

# **Section II: Object**

# II.1) Scope of the procurement

#### II.1.1) Title

Provision of Instrumented Runway Visual Range (IRVR) Capability at Inverness and Kirkwall Airports

Reference number

HIA-01335

#### II.1.2) Main CPV code

• 38100000 - Navigational and meteorological instruments

#### II.1.3) Type of contract

Supplies

#### II.1.4) Short description

HIAL wish to appoint a sole Supplier for the provision of an IRVR Capability initially at Inverness and Kirkwall Airports, plus potentially also at Stornoway, Dundee and Sumburgh Airports, as instructed by HIAL.

#### II.1.5) Estimated total value

Value excluding VAT: £475,000

#### II.1.6) Information about lots

This contract is divided into lots: No

#### II.2) Description

#### II.2.2) Additional CPV code(s)

- 38100000 Navigational and meteorological instruments
- 38120000 Meteorological instruments

34997000 - Control, safety or signalling equipment for airports

#### II.2.3) Place of performance

**NUTS** codes

• UKM6 - Highlands and Islands

Main site or place of performance

Inverness Airport and Kirkwall Airport

#### II.2.4) Description of the procurement

Tenderers are to provide a Tender Response for the provision of a replacement IRVR Capability, on a 'turnkey' basis including decommissioning, removal and disposal of existing equipment at Inverness Airport and Kirkwall Airport.

The total scope of the contract includes the design, manufacture/supply, installation, testing and commissioning of a CAA approved IRVR capability at each airport. This is to include all associated civil works, infrastructure and facilities, decommissioning and removal of existing assets, and end to end contractor and project management by the supplier. The supplier shall also provide a three (3) year warranty against fault, failure, error and completeness, including installation work defects.

The IRVR is required to enter operational service at Inverness Airport no later than 11th September 2021. The IRVR is required to enter operational service at other airports within 6 months from the point of order by HIAL.

#### II.2.5) Award criteria

Quality criterion - Name: System Requirements / Weighting: 42

Quality criterion - Name: Works Requirements / Weighting: 42

Quality criterion - Name: Sustainability / Weighting: 4

Quality criterion - Name: Provision at Other Sites / Weighting: 12

Price - Weighting: 30

#### II.2.7) Duration of the contract, framework agreement or dynamic purchasing system

**Duration in months** 

This contract is subject to renewal

Yes

Description of renewals

Maintenance and Support service may be renewed annually up to 15 years following the initial term.

#### II.2.10) Information about variants

Variants will be accepted: No

#### II.2.11) Information about options

Options: Yes

Description of options

- a) Provision of a new IRVR capability at Stornoway Airport, Dundee Airport and Sumburgh Airport
- b) Annual Support Service
- c) Ad Hoc Support Service
- d) Spare Parts Pack
- e) Consumables
- f) Additional HMI Equipment

#### II.2.13) Information about European Union Funds

The procurement is related to a project and/or programme financed by European Union funds: No

# Section III. Legal, economic, financial and technical information

# III.1) Conditions for participation

#### III.1.2) Economic and financial standing

Selection criteria as stated in the procurement documents

#### III.1.3) Technical and professional ability

Selection criteria as stated in the procurement documents

#### III.1.4) Objective rules and criteria for participation

List and brief description of rules and criteria

See Tender Document attached

# III.1.7) Main financing conditions and payment arrangements and/or reference to the relevant provisions governing them

Interim Payments

#### Section IV. Procedure

#### **IV.1) Description**

#### IV.1.1) Type of procedure

Open procedure

#### IV.1.8) Information about the Government Procurement Agreement (GPA)

The procurement is covered by the Government Procurement Agreement: Yes

# IV.2) Administrative information

#### IV.2.2) Time limit for receipt of tenders or requests to participate

# **Section VI. Complementary information**

# VI.1) Information about recurrence

This is a recurrent procurement: No

# VI.2) Information about electronic workflows

Electronic ordering will be used

Electronic invoicing will be accepted

Electronic payment will be used

# VI.3) Additional information

Runway Visual Range (RVR), as defined in Civil Aviation Authority (CAA) Civil Aviation Publication (CAP) 168 as "The range over which the pilot of an aircraft on the centreline of a runway can see the runway surface markings or the lights delineating the runway or identifying its centreline". IRVR equipment provides an automated assessment of RVR. The automated method eliminates error and inconsistencies with human observation, whilst also allowing efficient operations.

Ageing IRVR equipment in service at Inverness Airport and Kirkwall Airport requires replacement to meet ongoing requirements and is the subject of this project.

The Air Traffic Management Strategy (ATMS) Programme will integrate Air Traffic Services (ATS) for many of the HIAL airports in a Combined Surveillance Centre (CSC) and modernise the management of service to deliver safe and effective air navigation. The CSC and supporting operation will utilise cutting edge technology and modern operational methods to improve business resilience, comply with evolving regulation and implement environmental improvements. Service delivery will also be undertaken in the Remote HIAL ATS Training and Contingency Centre (HATCC) which will serve as a redundant facility if the CSC is unavailable.

Remote service provision from the CSC will require standardised meteorological equipment across the service delivery sites. This project provides an opportunity to detail an option to procure additional systems to meet the ATMS Programme need, principally for new IRVR equipment to be installed at Stornoway, Dundee and Sumburgh Airports.
