II.2.4) Description of the procurement

The aim of this tender is to establish preferred and CPI approved suppliers for the supply of GMP Phosphoramidite materials for use by CPI in pilot-scale manufacturing of oligonucleotides at the MMIC site near Glasgow. The materials will be used in the manufacture of materials going into clinical trials; therefore, supplier approvals and a Quality Technical Agreement will be required. Because of the limited storage capabilities at the current site and the fast-paced nature of certain projects, the main requirement is delivery speed and flexibility in the format of reagents required. Please note items detailed within the tender are for indicative purposes, and CPI reserves the right to order materials of a similar nature not explicitly detailed in the tender specification with the chosen supplier(s) selected under this tender.
