## Description

The Barbican Estate was designed by architects Chamberlin, Powell and Bon and was constructed between 1965 and 1976 and consists of over 2000 flats in 21 Blocks. The predominant typologies of the Estate are Tower blocks, terraced blocks and Crescent. The construction of the blocks is predominantly concrete with hardwood windows. The estate was listed in 2001. All repairs must comply with the Barbican Listed Building Management Guidelines.

It is intended that the commission for a design consultant which will be split into two projects with the overall goal of ensuring that the properties are waterproof for twenty years following completion of the works. One project will be for window repairs across all top floor properties on the Estate undertaken in one phase, and the other will be roof renewals, drainage repairs / renewals / redesign and balcony waterproofing renewal works undertaken over 4 phases, anticipated to last 6 years. All roof coverings are at or

close to the end of serviceable life. The current estimated construction cost of the works is £40m.

It is anticipated the consultant role will include but not be limited to:

- Carry out site surveys of all roofs, balconies, rainwater drainage and top floor windows.
- Produce material for any consultations with leaseholders about the projects. Attend consultations as necessary.
- Produce technical specification for works.
- Apply for all necessary statutory consents including Building Safety Regulator Approvals.
- Prepare contractual documentation for tender purposes.
- Act as Contract Administrator, Principal Designer and Building Regulations Principal Designer.
- Prepare pre-construction information pack for issue with tender documents.
- Review tender pack with ourselves and make any amendments as necessary.
- Answer any technical queries from contractors during tender process.
- Undertake tender analysis including price, technical, contractual assessments.
- Attend post tender meetings with contractors.
- Provide technical input in finalising of contract with chosen contractor.
- Attend all necessary meetings including pre-start and progress meetings.
- Review and comment on contractor drawings.
- Overview project through to completion and handover, allowing for sufficient attendance to accurately record any variations from the specification which will be necessary during the window repairs project.
- Witness testing on completion.
- Review and sign off O&Ms.
