**Section II: Object**

**II.1) Scope of the procurement**

**II.1.1) Title**

The Supply, services and Maintenance of Odour Control Units

Reference number

FA1521

**II.1.2) Main CPV code**

- 42924790 - Odour-masking apparatus

**II.1.3) Type of contract**

Supplies

**II.1.4) Short description**

Thames Water Utilities Ltd (TWUL) is intending to award a framework agreement and this will be split into lots for the supply of Odour Control Equipment.

The types of units to be included under the scope of supply will be all forms of odour control units held on Thames Water's estate of sites, including all forms of biofilters, chemical scrubbing units and carbon polishing units.

Services of Odour Control Equipment will also be included (Services comprise of but not limited to refurbishment, maintenance, and repair, and inspection of all assets and their ancillary equipment).

These goods and services will be used on our operational wastewater sites. TWUL has over 170 assets across multiple sites within the Thames Water waste region, made up of ~70 bioscrubbers, ~60 Carbon Scrubbers, and ~15 Chemical scrubbers. We have over 30 different OEMs although most units are manufactured by ERG Air Pollution control, Hibernia Export Trading House and Odour Services International.

## **II.1.6) Information about lots**

This contract is divided into lots: Yes

## **II.2) Description**

### **II.2.1) Title**

Supply/Install/Maintain/Service of New Odour Control Equipment

Lot No

1

### **II.2.2) Additional CPV code(s)**

- 45252200 - Purification plant equipment

### **II.2.3) Place of performance**

NUTS codes

- UKI - London
- UKJ - South East (England)

Main site or place of performance

The whole of the Thames Water Region.

### **II.2.4) Description of the procurement**

The scope of work for lot 1 includes: the manufacture, installation, supply, and delivery of new Odour Control Units. The maintenance will cover both planned and reactive maintenance, reactive call out repairs and refurbishment, media changes. Spares for all supplied equipment will be required.

This lot will be awarded to no more than 4 suppliers using mini competitions

### **II.2.11) Information about options**

Options: Yes

Description of options

Any agreement awarded would be for an initial duration of 5 years, with options to extend annually up to a maximum overall term of 8 years.

## **II.2) Description**

### **II.2.1) Title**

Inspection of EXISTING Odour Control Equipment

Lot No

2

### **II.2.2) Additional CPV code(s)**

- 45252200 - Purification plant equipment
- 45259100 - Wastewater-plant repair and maintenance work
- 45259200 - Purification-plant repair and maintenance work

### **II.2.3) Place of performance**

NUTS codes

- UKI - London
- UKJ - South East (England)

Main site or place of performance

The whole of the Thames Water Region.

### **II.2.4) Description of the procurement**

To supply Inspection services for existing Odour Control Units with a minimum initial term of 5 years.

The types of units to be included under the scope of inspection will be all forms of odour control units held on Thames Water's estate of sites, including but not limited to all forms of biofilters, chemical scrubbing units and carbon polishing units. Inspection will include but not limited to visual check for damage/defects to any part of system, taking

contaminate/pH readings, cleaning certain parts of the systems, and taking pressure measurements.

This lot will be awarded to a sole supplier for the whole Thames Water estate.

If a bidder has bid for both lot 3 and lot 2 and are successful in both, they will be awarded only the single lot for which they have gained the highest score. In the event that the bidders scores for lots 2 and 3 are tied then we will look at the commercial scoring to decide which lot will be awarded.

The bidder will be asked for their preference within the tender process.

#### **II.2.11) Information about options**

Options: Yes

Description of options

Any agreement awarded would be for an initial duration of 5 years, with options to extend annually up to a maximum overall term of 8 years.

### **II.2) Description**

#### **II.2.1) Title**

Refurbishment/Repair of EXISTING Odour Control Equipment

Lot No

3

#### **II.2.2) Additional CPV code(s)**

- 45252200 - Purification plant equipment
- 45259100 - Wastewater-plant repair and maintenance work
- 45259200 - Purification-plant repair and maintenance work

#### **II.2.3) Place of performance**

NUTS codes

- UKI - London
- UKJ - South East (England)

Main site or place of performance

The whole of the Thames Water region.

#### **II.2.4) Description of the procurement**

To supply services for Odour Control Units, including refurbishment services with a minimum initial term of 5 years.

The types of units to be included under the scope of service will be all forms of odour control units held on Thames Water's estate of sites, including all forms of biofilters, chemical scrubbing units and carbon polishing units.

The works will be awarded to a primary supplier with a reserve in place. Area 1 will contain approximately half of the asset base and will generally cover the east of the Thames Water estate. Area 2 will contain approximately half of the asset base and will generally cover the west of the Thames Water estate.

We aim to appoint no more than 4 suppliers to the framework agreement.

Mini competitions will be run between both preferred and reserve suppliers for the relevant asset allocations in the case of (a) high value projects and (b) where required lead times cannot be met by the preferred supplier. If a bidder has bid for both lot 3 and lot 2 and are successful in both, they will be awarded only the single lot for which they have gained the highest score. In the event that the bidders scores for lots 2 and 3 are tied then we will look at the commercial scoring to decide which lot will be awarded. The bidder will be asked for their preference within the tender process.

#### **II.2.11) Information about options**

Options: Yes

Description of options

Any agreement awarded would be for an initial duration of 5 years, with options to extend annually up to a maximum overall term of 8 years.

## **Section VI. Complementary information**

### **VI.3) Additional information**

Please note this is a Contract Award Notice.

### **VI.4) Procedures for review**

#### **VI.4.1) Review body**

Thames Water Utilities Limited

Reading

Country

United Kingdom

Internet address

<https://www.thameswater.co.uk/>

#### **VI.4.3) Review procedure**

Precise information on deadline(s) for review procedures

Thames Water Utilities Limited will incorporate a standstill period at the point information on the award of the contract is communicated to tenderers.

That notification will provide full information on the award decision. The standstill period, which will be for a minimum of 10 calendar days, provides time for unsuccessful tenderers to challenge the award decision before the contract is entered into.

The Utilities Contracts Regulations 2016 provide for aggrieved parties who have been harmed or are at risk of harm by a breach of the rules to take action in the High Court (England, Wales and Northern Ireland).
