Contract

# FS101211 Radiological Monitoring Sample, Analysis and Collection

The Food Standards Agency

F03: Contract award notice

Notice identifier: 2023/S 000-003421

Procurement identifier (OCID): ocds-h6vhtk-03518c

Published 3 February 2023, 12:58pm

## **Section I: Contracting authority**

## I.1) Name and addresses

The Food Standards Agency

Foss House, Peasholme Green

York

**YO1 7PR** 

#### **Email**

FSA.Procurement@food.gov.uk

#### Country

**United Kingdom** 

#### Region code

UK - United Kingdom

#### Internet address(es)

#### Main address

## www.Food.gov.uk

# I.4) Type of the contracting authority

Ministry or any other national or federal authority

## I.5) Main activity

General public services

## **Section II: Object**

#### II.1) Scope of the procurement

#### II.1.1) Title

FS101211 Radiological Monitoring Sample, Analysis and Collection

Reference number

FS101211

#### II.1.2) Main CPV code

• 73000000 - Research and development services and related consultancy services

#### II.1.3) Type of contract

Services

#### II.1.4) Short description

The Food Standards Agency (FSA) is responsible for food safety in England, Northern Ireland and Wales (Food Standards Act, 1999) and thereby undertakes monitoring and dose assessments of the food safety implications of radioactive wastes discharges to the environment. FSA's radiological monitoring programme establishes radioactivity concentrations within the vicinity of, and at distance from, nuclear licensed sites and demonstrates that radioactivity from manmade sources does not compromise food safety and are within national and EU acceptable limits of 1 mSv per annum. The FSA programmes conform to the requirements in Article 35 and 36 (Directive 96/29/Euratom) laying down Basic Safety Standards (Directive 2013/59/Euratom) for protection against the dangers arising from exposure to ionising radiation. The purpose of this contract is to deliver a combined sampling/radioanalytical programme that is cost-efficient and effective in meeting the FSA's statutory requirements and provides resilience in the event of a radiological emergency/incident in the UK. The work requires collection, preparation and radioanalysis of aquatic and terrestrial food samples, and the timely reporting of information and results in specified formats, from locations around the nuclear sites (and away) across England, Wales and Northern Ireland. The results will then be used to estimate the radiological exposure (doses) to consumers

#### II.1.6) Information about lots

This contract is divided into lots: No

#### II.1.7) Total value of the procurement (excluding VAT)

Value excluding VAT: £3,721,518.53

#### II.2) Description

#### II.2.3) Place of performance

**NUTS** codes

• UK - United Kingdom

#### II.2.4) Description of the procurement

The Food Standards Agency (FSA) is responsible for food safety in England, Northern Ireland and Wales (Food Standards Act, 1999) and thereby undertakes monitoring and dose assessments of the food safety implications of radioactive wastes discharges to the environment. FSA's radiological monitoring programme establishes radioactivity concentrations within the vicinity of, and at distance from, nuclear licensed sites and demonstrates that radioactivity from manmade sources does not compromise food safety and are within national and EU acceptable limits of 1 mSv per annum. The FSA programmes conform to the requirements in Article 35 and 36 (Directive 96/29/Euratom) laying down Basic Safety Standards (Directive 2013/59/Euratom) for protection against the dangers arising from exposure to ionising radiation. The purpose of this contract is to deliver a combined sampling/radioanalytical programme that is cost-efficient and effective in meeting the FSA's statutory requirements and provides resilience in the event of a radiological emergency/incident in the UK. The work requires collection, preparation and radioanalysis of aquatic and terrestrial food samples, and the timely reporting of information and results in specified formats, from locations around the nuclear sites (and away) across England, Wales and Northern Ireland. The results will then be used to estimate the radiological exposure (doses) to consumers

#### II.2.5) Award criteria

Price

#### II.2.11) Information about options

Options: No

#### II.2.13) Information about European Union Funds

The procurement is related to a project and/or programme financed by European Union funds: No

## Section IV. Procedure

## **IV.1) Description**

#### IV.1.1) Type of procedure

Restricted procedure

## IV.1.8) Information about the Government Procurement Agreement (GPA)

The procurement is covered by the Government Procurement Agreement: No

## IV.2) Administrative information

### IV.2.1) Previous publication concerning this procedure

Notice number: <u>2022/S 000-019172</u>

#### Section V. Award of contract

A contract/lot is awarded: Yes

#### V.2) Award of contract

#### V.2.1) Date of conclusion of the contract

30 January 2023

#### V.2.2) Information about tenders

Number of tenders received: 1

The contract has been awarded to a group of economic operators: No

#### V.2.3) Name and address of the contractor

CEFAS - Centre for Fisheries, Aquaculture and Science

Lowestoft

Country

**United Kingdom** 

**NUTS** code

• UK - United Kingdom

The contractor is an SME

No

#### V.2.4) Information on value of contract/lot (excluding VAT)

Total value of the contract/lot: £3,721,518.53

# Section VI. Complementary information

# VI.4) Procedures for review

VI.4.1) Review body

Food Standards Agency

York

Country

United Kingdom
