Ministry or any other national or federal authority

# I.5) Main activity

Public order and safety

# **Section II: Object**

## II.1) Scope of the procurement

#### II.1.1) Title

Future Cyclamen: Early Market Engagement PIN

#### II.1.2) Main CPV code

• 90721600 - Radiation protection services

### II.1.3) Type of contract

Services

#### II.1.4) Short description

The Authority is embarking on early market engagement ahead of a formal procurement to put in place new contracts to support and enhance its Cyclamen capability.

The future contracts would be for service and maintenance of Fixed and Non-Fixed Radiological and Nuclear (RN) Detection equipment in support of Cyclamen, including the IT platform and infrastructure. It may also include some provision to enable potential supply of hardware and associated software.

Cyclamen is the UK's RN border detection system that plays a key part in protecting the UK border and is a critical part of HMG's Nuclear Security Strategy as well as CONTEST, the Government's counter-terrorism strategy. It is a joint OSCT and Border Force initiative: OSCT is responsible for the counter-terrorism policy and risk and Border Force operates the capability at the Border.

Interested potential suppliers should visit the Home Office's eSourcing portal (Jaggaer) and look for: "PQQ\_345 01 - Future Cyclamen: Non-Disclosure Agreement (NDA) for Early Market Engagement".

You should complete and submit the NDA following which we will invite your organisation to the Jaggaer site that contains our Early Market Engagement document with more details about the Authority's requirements and how to participate.

We also have a virtual supplier event planned to take place on Thursday 23 March 2023, subject to confirmation. Once you are fully registered at our Jaggaer microsite, your organisation will be invited to the supplier event when the date and time have been confirmed.

Please note this is not a call for competition but start of early market engagement.

## II.1.5) Estimated total value

Value excluding VAT: £150,000,000

#### II.1.6) Information about lots

This contract is divided into lots: No

## II.2) Description

#### II.2.2) Additional CPV code(s)

- 31642000 Electronic detection apparatus
- 35113200 Nuclear, biological, chemical and radiological protection equipment
- 35113210 Nuclear safety equipment
- 35120000 Surveillance and security systems and devices
- 35121000 Security equipment
- 38341000 Apparatus for measuring radiation
- 38430000 Detection and analysis apparatus
- 38433200 Emission measurement equipment
- 38546000 Explosives detection system
- 38546100 Bomb detectors
- 38581000 Baggage-scanning equipment
- 38940000 Nuclear evaluation instruments
- 45315100 Electrical engineering installation works
- 45316210 Installation of traffic monitoring equipment
- 48210000 Networking software package
- 50100000 Repair, maintenance and associated services of vehicles and related equipment
- 50116100 Electrical-system repair services
- 50312300 Maintenance and repair of data network equipment

- 50312600 Maintenance and repair of information technology equipment
- 50324100 System maintenance services
- 50324200 Preventive maintenance services
- 50343000 Repair and maintenance services of video equipment
- 50410000 Repair and maintenance services of measuring, testing and checking apparatus
- 50530000 Repair and maintenance services of machinery
- 50600000 Repair and maintenance services of security and defence materials
- 50610000 Repair and maintenance services of security equipment
- 51100000 Installation services of electrical and mechanical equipment
- 51411000 Installation services of imaging equipment
- 51540000 Installation services of special-purpose machinery and equipment
- 72212211 Platform interconnectivity software development services
- 73421000 Development of security equipment
- 75222000 Civil defence services
- 98113100 Nuclear safety services

#### II.2.3) Place of performance

**NUTS** codes

• UK - United Kingdom

#### II.2.4) Description of the procurement

The Home Office is seeking the views of potential suppliers on how best to deliver RN services in support of Cyclamen.

Please note that this is not a call for competition, neither is it a procurement exercise but an opportunity for the Home Office to better understand the supplier market and for potential suppliers to provide feedback at a formative stage of the process.

The Authority's high level business outcomes and requirements are summarised below:

• Provide service and maintenance to the current deployed live RN detection capability at ports and airports, around the UK and one site in northern France, including all associated

IT infrastructure, both cloud-based and physical.

- Work with other key suppliers and subject matter experts including the Atomic Weapons Establishment (AWE) in the testing, calibration and integration of new and existing components within the solution and any changes discovered through the continuous improvement process.
- The complex nature of the solution means that there will be a number of stakeholders in addition to the Home Office that the supplier would be expected to work with in the execution of the Cyclamen Service. The new supplier may also be required to procure hardware and associated software on behalf of the authority.
- A current test facility exists used by the incumbent supplier, Home Office and other key stakeholders and is employed for the purpose of testing, integration and storage. Work is ongoing to look at the arrangements and processes for running the site but there will be a need for the supplier to use the dedicated facility for testing purposes.

More information may be found in our Early Market Engagement document.

#### II.2.14) Additional information

To take part please register on Home Office eSourcing portal — <a href="https://homeoffice.app.jaggaer.com/web/login.html">https://homeoffice.app.jaggaer.com/web/login.html</a> and look for: "PQQ\_345 01 - Future Cyclamen: Non-Disclosure Agreement (NDA) for Early Market Engagement".

You will then be invited to our dedicated microsite in Jaggaer where you can find more information about our requirements and express your interest to attend our supplier event.

# II.3) Estimated date of publication of contract notice

31 December 2023

## Section IV. Procedure

## **IV.1) Description**

#### IV.1.8) Information about the Government Procurement Agreement (GPA)

The procurement is covered by the Government Procurement Agreement: Yes
