II.1.4) Short description

The purpose of this procurement is to establish a framework for the provision of Specialist Estates Engineering & Maintenance Services (Hard FM). The framework will provide a one stop shop for organisations to fulfil their Specialist Estates Engineering & Maintenance Service (Hard FM) requirements, with suppliers selected for their experience and ability to provide customers with a comprehensive range of services and works that combine quality, value and compliance.

The framework has been designed to facilitate current trends in FM and also to provide a flexible route for Estates and FM departments within contracting authorities to procure services.

The framework Lots have been configured to enable Service Providers to be able to bid for areas within their specialism, making it friendly for SME's. Service Providers have the option of bidding for one or more Lots within the framework, with NOECPC appointing up to 12 Service Providers for each Lot.
