Body governed by public law

**I.5) Main activity**

Environment

---

**Section II: Object**

**II.1) Scope of the procurement**

**II.1.1) Title**

CEFAS20-21 Contract for the Provision of Baited Remote Underwater Video Systems (BRUVS) and Associated Services - Contract Extension

**II.1.2) Main CPV code**

- 73300000 - Design and execution of research and development

**II.1.3) Type of contract**

Services

**II.1.4) Short description**

The Contractor will deliver mid-water BRUVS with benthic adaptation fitments to each OT included in the network and the associated services for training, survey planning and analysis.

## **II.1.6) Information about lots**

This contract is divided into lots: No

## **II.1.7) Total value of the procurement (excluding VAT)**

Value excluding VAT: £776,222.37

## **II.2) Description**

### **II.2.3) Place of performance**

NUTS codes

- UK - United Kingdom

### **II.2.4) Description of the procurement**

The Contractor will deliver mid-water BRUVS with benthic adaptation fitments to each OT included in the network and the associated services for training, survey planning and analysis.

### **II.2.5) Award criteria**

Price

### **II.2.11) Information about options**

Options: No

### **II.2.13) Information about European Union Funds**

The procurement is related to a project and/or programme financed by European Union funds: No

---

## Section IV. Procedure

### IV.1) Description

#### IV.1.1) Type of procedure

Award of a contract without prior publication of a call for competition in the cases listed below

- The services can be provided only by a particular economic operator for the following reason:
  - protection of exclusive rights, including intellectual property rights

Explanation:

The rig design, software and associated AI analysis rights are owned by Blue Abacus and Cefas would not be able to purchase software / AI analysis compatible with this elsewhere. BRUVS supplied by the Blue Abacus are already used in certain Overseas Territories and this purchase for Cefas would ensure that by buying the same equipment, software and AI analysis services, the data will be collected and analysed consistently with data already collected and analysed in the other Overseas Territories. Purchase of these BRUVS would support the ability to create a cross territory BRUV network as part of the Blue Belt Programme. It is therefore critical that the data informing the management and conservation of a range of species and habitats is collected in a consistent, comparable and statistically robust manner.

#### IV.1.8) Information about the Government Procurement Agreement (GPA)

The procurement is covered by the Government Procurement Agreement: No

### IV.2) Administrative information

#### IV.2.1) Previous publication concerning this procedure

Notice number: [2021/S 000-001699](#)

---

## Section V. Award of contract

### Contract No

Cefas20-21

A contract/lot is awarded: Yes

## **V.2) Award of contract**
