Description

NHS Blood and Transplant is leading a procurement for the provision and maintenance of a Parallel Bioreactor and associated consumables.

We are looking to appoint one (1) Supplier for the provision of this requirement.

The Clinical Biotechnology Centre (CBC) are committed to providing manufacturing capability for viral vector products used in cell and gene therapies. As part of the Medical Research Council funded network for innovation in gene therapies, the CBC anticipate onboarding multiple viral vector projects per year. To reduce the risk of failed batches in GMP manufacturing, the onboarding process, any GMP contracts will be subject to intensive process definition at small scale prior to proceeding with GMP manufacturing contracts.

The required parallel small-scale bioreactor system is critical for the onboarding process in allowing the process development to characterise the operational space (experimental space) and its critical process parameters. A small-scale parallel enables these parameters to be established at reduces scale enabling a larger number of parameters to be established.

Contract 2. Supply of Parallel Bioreactor including Maintenance and Consumables

Supplier

- [BioLogic Technologies Limited](#)

Contract value

- £811,075.24 excluding VAT
- £973,290.28 including VAT

Above the relevant threshold

Date signed

15 January 2026

Contract dates

- 19 January 2026 to 18 January 2031

- Possible extension to 18 January 2036
- 10 years

Description of possible extension:

5 Years, annual or cumulative extension options

Main procurement category

Goods

Options

The right to additional purchases while the contract is valid.

5 Years, annual or cumulative extension options

CPV classifications

- 33100000 - Medical equipments

Contract locations

- UK - United Kingdom

Key performance indicators

Name	Description	Reporting frequency
Delivery Timeliness	99% of all deliveries are on time in full	12 months

Name	Description	Reporting frequency
Reliability of Goods	Less than 1% of Goods provided have reported faults or missing information	12 months
Provision of Response	95% response rate to all requests for technical advice under requirement MSC5 within four working days	12 months
