FRS23247 Valuing Resilience Actions

Reference number

P-36637

II.1.2) Main CPV code

- 73110000 - Research services

II.1.3) Type of contract

Services

II.1.4) Short description

The project aim is to identify and generate pragmatic, robust and proportionate economic methods for determining economic benefits for individual flood and coastal resilience and adaptation actions.

II.1.6) Information about lots

This contract is divided into lots: No

II.2) Description

II.2.3) Place of performance

NUTS codes

- UK - United Kingdom

II.2.4) Description of the procurement

The project aim is to identify and generate pragmatic, robust and proportionate economic methods for determining economic benefits for individual flood and coastal resilience and adaptation actions.

This will be achieved through the following objectives:

-identify weaknesses and gaps in current methodologies for assessing the economic

benefits of different flood and coastal resilience and adaptation actions and work underway to address these

- develop quick wins for generating new robust project economic appraisal guidance and produce interim guidance

- implement solutions to fill gaps in economic methods through the Flood and Coastal Innovation Programme projects

- apply the methods to the Flood and Coastal Innovation Programmes to generate an assessment of the economic benefits from resilience and adaptation actions delivered by the projects

- update interim user guidance with new methods which are suitable for appraisals following the HM Treasury Green Book

II.3) Estimated date of publication of contract notice

30 May 2025

Section IV. Procedure

IV.1) Description

IV.1.8) Information about the Government Procurement Agreement (GPA)

The procurement is covered by the Government Procurement Agreement: No
