Provision of home based care services inclusive of rapid support services and live-in care. The service is a short-term reabling domiciliary service offering timely support for individuals who may have an eligible Care Act need. These individuals may need support following discharge from a hospital setting or a short-term service to their own home or may require support to prevent the need for a hospital admission, thereby supporting flow and effective management within the wider system. The service may be used whilst a long-term package of care is being sourced to bridge a package of care until the existing provider has capacity to restart the package following a hospital admission, to provide an assessment period to enable a full Care Act assessment (this may be in addition to an existing package of care) or to prevent a hospital admission.
